

A LABOR DAY TRIBUTE

To the sons, the brothers, and the loved ones of American workers who are fighting America's war on the front line, right alongside the American citizens from all other walks of life.

To the loyal working men and women who are carrying on America's victory production program on the home front, breaking production records and beating schedules every three-shift day.

To the more than 1,100 sturdy mechanics who fought beside our Marines at Guam and Wake, and who are now prisoners of war.

To America's tough seamen, who are sailing America's merchant ships and tankers on the high seas, braving daily submarine attacks, carrying on, although hundreds of their fellow sailors have lost their lives in U-boat attacks.

To the railroad workers of America, who transported the record-making number of 4½ million soldiers in the record-breaking time of 6 months.

To those rough and ready teamsters who rode the Burma Road and who are now transporting supplies by other routes to China despite enemy bombers.

To the more than 100,000 American workers who are building America's defense outposts in Hawaii, Alaska, the Canal Zone, and other bases, who give up safe jobs at home to wield their tools under fire.

To the workers of America, who are leading America in systematic purchase of War Savings Bonds, over 18 million of whom are investing over 200 million dollars a month in War Bonds, with figures mounting weekly.

American workers are paying their full share of the cost of this war—in blood, in sweat, in sacrifice, in taxes. They entered this war with their eyes open as free men and women, and they are determined to come out of this war free men and women. All America hails them for their loyalty, faith, and determination to do their part to win the war.
