

Workers Needed To Assist In Concert Drive

Campaign Will Open Monday, October 19, Luncheon Will Pete Workers Of Group

Wilmington's Co-Operative Concert association is in urgent need of many new campaign workers to assist in its annual membership drive which will open in Wilmington Monday, October 19.

Due to the addition of many new residents who will be interested in joining the association it will be impossible to reach all with the small number of workers who assisted last year. All persons who would like to work with the group are invited to call any of the following: Mrs. O. O. Humphries at telephone 3449, E. H. Munson at telephone 5475 or Mr. and Mrs. William G. Robertson at telephone 6519, for complete information on the campaign.

The annual luncheon for campaign workers will be held Monday at 1 o'clock in Gilmore hall of the First Presbyterian church and new workers must get in touch with the above named persons by noon Friday in order to have reservations for the luncheon.

As usual admittance to all concerts is by membership card only, purchased in advance during membership week.

Headquarters for the drive will be opened at the Wilmington Furniture company Monday, October 19.

It requires 8000 man hours to make a fast American pursuit ship.

Musical Production To Be Staged In Local Auditorium By Army Unit

Attracting much interest around the city is the news of the splendid rehearsals now underway for the musical extravaganza, "Dogpatch Doings," which will be presented here on the evening of Friday, October 30, in the New Hanover High school auditorium, for the benefit of the enlisted personnel of the 603rd Signal Plotting company attached to the Wilmington Air Defense Region.

Rehearsals are being held during the evenings in the parish house of St. James church and are under the direction of Howard Ganster and Mr. and Mrs. William G. Robertson, well known to many of the theatre-goers of Wilmington.

Health League Will Sponsor Radio Program

Announcement of a new radio program sponsored by the Health Defense League was made yesterday by Mrs. Lester Preston, radio chairman. This program will be heard over station W. M. F. D. every Tuesday evening from 8:35 o'clock through the courtesy of the management under the direction of Mrs. Preston and Mrs. Arthur Diehl.

Useful information about caring for children, improving health and preventing disease will be given each week as well as information regarding the league's program, such as the war time registration which is now being conducted by the Health Defense League.

Referring to the coming war-time registration of women, by the Health Defense League, Mayor Hargrove Bellamy announced: "The discovery of volunteer services for war-time work is an effort which should receive the active support of every woman in Wilmington and New Hanover county and the moral support of every man. This war is demanding an increasing amount of service on the home front which must be rendered by women, therefore it is a pleasure for me as Mayor of the city of Wilmington, to endorse the women's war-time registration which is being conducted by the Health Defense League."

In discussing air-raid defense in the community, H. S. Strickland told the association that strategic points in the county are to be equipped with sirens, some of which will be installed at an early date in this immediate community.

P-T. A. Congress To Sponsor Program Over Local Station

The North Carolina Congress of Parents and Teachers will sponsor a series of four radio programs over the local station, WMFD, Friday mornings from 10 until 10:15 a. m., with Mrs. Lester Preston in charge of the program assisted by her committee.

The first discussion will be to Parents in Wartimes and will deal with questions and answers on the following subjects:

1. How Can We Protect Our Children? Can you blame parents for trying to get the things that will assure the comfort of their children as one way to protect them? How does this affect inflation? How does it affect the total war effort? What kind of security in the home is most important to children? How does our attitude toward the war get over to the children? What are the everyday things that you will try to keep up as a way of giving your children a feeling of protection and security?

Are there some things that we can well give up and maybe even make it better for everyone concerned? For example? What are you going to do when you yourself are anxious and upset over the war? Can we build up our own courage? How can grade school children do things to help in the war effort? How will you advise the child who wants to stop school? The 14 year old girl who wants to entertain the soldier? The 16 year old who wants to marry the fellow she met last month? The older

girl who has to adjust her marriage plans to the war situation?

It isn't TABOO any more for girls to know these truths

Girls today can be grateful that some subjects are discussed more frankly than they used to be.

That's one reason why thousands of women have come to know about CARDUI's 2-way help. Some take it, as directed, three days before "their time" to help relieve periodic pain due only to functional causes. Others take it as a tonic to stimulate the appetite and aid digestion by increasing the flow of gastric juices, thus helping build up strength and energy for those demanding days to come.

A 62 year record says CARDUI may help. Try it, won't you?
