

MAXIMUM PRICE ON FEED FIXED Dollars And Cents Ceilings On Linseed Products Are Lower

To aid the nation's food-for-free-dom program through reducing the price the farmer must pay for animal feeds, the OPA has brought linseed oil meal, cake and pellets under price control with specific dollar-and-cent ceilings at prices below current levels, the district OPA office has announced. The maximum prices established for crushers in the action are listed in dollars-and-cents per ton F.O.B. crushing plant, with pricing at 10 principal crushing points. A differential of \$1 a ton is allowed where shipments are in less than carload lots. Jobbers are allowed maximum mark-ups of 50 cents a ton in carload lots and \$1 in less than carload lots. The wholesalers' maximum mark-up is \$2.50 and the retailers, \$5.50. Minneapolis, the major linseed market in the United States, has a crushers maximum price of \$40 a ton for meal or cake in bulk and \$43.50 per ton sacked. The maximum prices for pea size meal and pellets are \$1.50 a ton above those for sacked meal. These figures represent a \$10 per ton reduction under current prices.

BRITISH SURGING ON TO TAKROUNA

(Continued From Page One) to restrict the great Allied aerial offensive which yesterday was directed at smashing the last fighter fields available to the enemy. The communiqué said 27 Axis planes were destroyed yesterday at a cost of eight Allied aircraft. Along with other planes shot down on previous days but not reported before, this score boosted to 151 the total of enemy planes destroyed in the last three days. There was every reason to believe that the fighting was costly to the British Eighth Army which now has left its desert theater and tackled the heavy task of shattering the enemy's intricate positions in the long series of green mountains between Enfidaville and Tunis. The capture of Enfidaville opened up the coastal road leading to Bou Ficha, 12 miles farther north, but before it can be used General Montgomery's men must clean out Axis troops in mountains flanking the road on the west. Marshal Rommel was turning every acre of ground in his final pocket into bloody battlegrounds as was apparent in his four counterattacks yesterday. A dispatch from Associated Press Correspondent Noland Norgaard, who is with the Eighth Army, said the violent fight for Takrouna began yesterday with the Axis counterattacks from above the city in an effort to smash British troops who already had encircled the mountain town.

Final Date For Ceiling Calculations Delayed

Final dates by which wholesale and retail grocers must calculate their maximum prices on commodities sold under the so-called adjusted and fixed mark-up regulations have been postponed by the OPA, according to officials of the district OPA office here. Previously, wholesalers had had a deadline of April 15, by which time they were to have calculated their new maximums. This has been extended to May 3, with a reporting date of May 13. The previous reporting date had been April 25. Retailers, previously, had had a deadline of May 1, by which time they were to have had their maximums calculated. This now is May 20. In line with its policy of facilitating retailers' compliance with regulations, OPA some time ago eliminated the requirements that retailers report their maximums. The action was accomplished through Amendment No. 13 to Maximum Price Regulation No. 237 (adjusted and fixed mark-up regulation for sale of certain food products at wholesale) and Amendment No. 14 to Maximum Price Regulation No. 238 (adjusted and fixed mark-up regulation for sale of certain food products at retail). The amendments are already effective.

Fly to Berchtesgaden

Drop a bomb on the Berghof and hope Mr. Hitler's at home! Do it by saving used cooking fats for gunpowder. Even with rationing, you can save a tablespoon a day. Rush each canful to your meat dealer.

City Briefs

Of the 92 elements, only 13 appear to any important degree in the human body.

ARNOLD PLEDGES DEATH FOR JAPS

(Continued From Page One)

"Following commutation of the sentence for the larger number of them, the sentence of death was applied to certain of the accused."

The Japanese accusation was that the fliers had bombed non-military targets and shot civilians, and they told the Swiss minister in Tokyo that these acts were admitted.

They declined, however, to say which men had been executed or what disposition had been made of their bodies. Thus, the American government was left with no details and not knowing which of the following eight men, missing after the Tokyo raid and presumed prisoners, were the victims of this Japanese terrorism:

First Lieutenant William Glover Farrow of Washington, Robert L. Hite of Earth, Tex., Robert J. Meder of Lakewood, O., Chase J. Nielson of Hyrum, Utah and Dean E. Hallmark of Dallas.

Second Lieutenant George Barr of Madison, Wis.

Sergeant Harold A. Spatz of Lebo, Kas.

Corporal Jacob D. Deshazer of Madras, Ore.

The State Department's reply, given the Swiss to convey to Tokyo, recalled the obligations Japan has assumed regarding treatment of military prisoners; the promise that the protecting power (the Swiss) must be given three weeks notice before a prisoner is tried, that a representative of the protecting power must be allowed to be present—all the other provisions of conventions concerning treatment of prisoners.

TRASH DISPOSAL URGED FOR CITY

(Continued From Page One)

ly fit if we prepare and cultivate our own gardens."

To residents of suburban communities, where city collectors do not function, Dr. Eliot addressed the following words:

"In the interest of health, sanitation, and beautification, the health department requests your cooperation in the disposal of garbage and trash. Anything you can do to help keep your own premises, the streets, and highways clean and attractive will be greatly appreciated. Careless or thoughtless disposal of trash and rubbish along the side of any highway or street or on a vacant lot is definitely displeasing rather than attractive to visitors, tourists and especially to your neighbors who may live near such dumping grounds.

"If all suburban residents will dispose of their garbage and trash through a paid collector or dispose of it on their own premises by burning or burying it, the healthfulness and attractiveness of the grounds.

IF YOU SUFFER FROM ARTHRITIS

or Rheumatism, you can now do something about it! Medical science has recently come to the rescue with DMC PRESCRIPTION No. 49. Try this remarkable new medicine for two weeks and you'll be surprised at the results. There is absolutely nothing on the market so effective for the treatment of Arthritis and Rheumatism as DMC PRESCRIPTION No. 49.

sphere. Let the good work continue."

The presidents dined on regular flying cadet rations, with frankfurters, mashed potatoes and string beans as the main course. The pomp and ceremony of the Monterey visit was lacking.

Avila Camacho did not speak. As he left the mess hall he shook hands with the Mexican cadets.

Touring the training center in an open car, the two presidents saw dozens of patrol bombers and other planes, some in the air, some on the ground, cheering lines of civilian workers, cadets drilling and running around a Com-mando toughening course.

The simple meal and reception of the Mexican president stood out in stark contrast to the gala welcome Mr. Roosevelt had received below the border where tens of thousands of people rained confetti, serpentine and roses on him and a festive band was spread at a military post just outside Monterey.

Here there was no 60-piece string Mariachi band and the only musical note was the whine of propellers knifing the air overhead.

QUICK RELIEF FROM SYMPTOMS OF DISTRESS ARISING FROM STOMACH ULCERS DUE TO EXCESS ACID

Free Book Tells of Home Treatment that Must Help or It Will Cost You Nothing Over 2 million bottles of the WILLARD TREATMENT have been sold for relief of symptoms of distress arising from Stomach and Bowel Ulcers due to Excess Acid—Poor Digestion, Sour or Upset Stomach, Gasoline, Heartburn, Sleeplessness, etc., due to Excess Acid. FREE Box of LUX with Ladies' Lingerie and Hose 79c and Up

STOCKING SAVERS

Wash stockings after every wearing in lukewarm Lux suds. This gentle care saves stocking elasticity, cuts down runs. Avoid strong soaps, cake-soap rubbing. After rinsing, roll stockings in Turkish towel to remove excess moisture. Unroll immediately and dry away from heat—never on a radiator. Dry rayons 24 to 48 hours to be sure they are thoroughly dry before wearing.

Visit our Conservation Booth—see the special exhibit of correctly and incorrectly washed clothes.

WE RECOMMEND

SPECIAL RAYON HOSE Another shipment of those fine quality hose in spring shades. These are seconds of higher priced rayon hose. 55c 2 Pairs \$1. NO LUX WITH THESE
