OPA STRIKES AT POULTRY BLACK MARKET IN N. C.

ants from selling poultry items in excess of the ceiling prices, and order them to appear before Judge McKeen for a hearing at the Wilson term of U. S. court May 2.

Commenting on advertisements of two firms appearing today in Raleigh newspapers, Johnson expressed OPA's appreciation for the dealers' refusal to pay more than ceiling prices.

"That kind of patriotism is badly needed to stamp out 'black market' operations," he said.

"There could be no purchases by unscrupulous dealers violating the price ceilings unless there are sellers whose desire for profit is greater than their interest in the welfare of their country.

"We earnestly solicit the patriotic cooperation of every citizen and especially every dealer in poultry to help us stamp out this type of profiteering at the expense of the consuming public."

STOCKHOLM WARNS GERMANS AGAINST ILLEGAL MINES

(Continued from Page One)

It was disclosed that during the search for the missing Swedish submarine Ulven, submerged German mines were discovered inside the three-mile territorial limit in the vicinity of Marstrand.

The Swedes have taken steps to remove the mines, the statement said, and added that "in the conviction that the German government is completely agreed with the justification of this method of action, the Swedish government permits itself to direct renewed representation to the German government to try to see to it that German ships which pass Swedish waters restrain themselves from actions of above mentioned types."

The note said that it was "undisputable" that the Altkirch shot at the Draken and that this action, together with the mine laying, comprised a "violation of Sweden's neutrality."

DEATH OF LEWIS TERMED ACCIDENT

(Continued from Page One)

Aaron Goldberg, representing the Lewis family, Dr. Gilland justified Dr. Workman's proceeding with the originally intended operation after observing no unfavorable symptoms in the patient following the injection of air. He said from 50 to 60 cubic centimeters of air injected in the human body usually results in death, but the pressure from the machine used in this case was unascertainable and therefore the amount of air injected into Lewis was unknown.

Several members of the soldier's family were present at the inquest. Member of the jury impaneled by Coroner Asa W. Allen were W. P. Powell, W. E. Davis, E. H. Gariss, W. R. Hadley, Nathan Hasskett and W. G. Doran.

Funeral services for Lewis, a native of Winnabow, Brunswick county, will be held at the Mill Creek Baptist church at 3 p. m. Sunday by the Rev. Taylor, pastor of Burgaw Baptist church, and Chaplain C. O. White.

LEADERS SOUGHT FOR GIRL SCOUTS

Appeal Sounded By Group Organizational Chairman For Wilmington Area

An appeal for leaders of Girl Scout Troops was made Saturday by Mrs. H. W. Winkle, group organizational chairman of the Wilmington Girls Scouts, as she revealed that membership in the Girl Scouts in this vicinity had increased from 104 last year to over 500 this year.

"From only five troops of a year ago, we now have 15 active units," Mrs. Winkle pointed out. "But we need more and more interested women to help out in the movement. The Scout Leadership drive is a tremendous opportunity for any woman, because the attitudes and knowledge that girls learn in Scouting today can influence the whole future of America."

The Scout chairman said the rising delinquency rate among very young girls in many parts of the country indicated what happens when youngsters are subjected to too much war excitement and too little opportunity for training.

Women of Wilmington, Wrightsville and Carolina Beaches who are interested are asked to call at the Girl Scout office, 20 Wallace building.

CELANESE COMPANY STRIKE IS ENDED

(Continued from Page One)

district 50, a catch-all union of UMW, protested certification by the national labor relations board of a CIO textile union as the bargaining agent. The UMW group insisted that the war labor board take over the case, a procedure which the board declined.

Board Convenes

The Celanese case was one of a double-headed problem the government had involving the United Mine Workers. Latest development in the second situation was the convening of a war labor board hearing on the soft coal wage dispute, an opening session not attended by Lewis nor any of his officials who had been summoned to the meeting. Operators were represented.

At the conclusion of the preliminary meeting, the board ordered the present wage contract extended pending settlement of the dispute, announced it would set up a three-man panel to begin closed sessions Wednesday and said the proceedings would go ahead with or without participation of UMW representatives unless a work stoppage develops.

The Wednesday date for starting the hearings is only three days before expiration of the already once-extended deadline for expiration of the existing contract between operators and the UMW.

Trouble in the nation's coal mines already were appearing as the week-end came along.

At Birmingham, Ala., five mines of the Tennessee Coal, Iron and Railroad company and the Woodward Iron company became idle Saturday when workers failed to show up. A district UMW president said the work stoppage grew from dissatisfaction over what he said was failure of the operators to install a six-day week and from slow progress in negotiations for a new contract.

Other Stoppages

There were work stoppages in other industries in scattered parts of the country.

The Detroit tank arsenal operated by Chrysler corporation closed Saturday morning. A corporation spokesman said the stoppage came after 500 workers paraded through the building to protest a day-and-a-half layoff of one employee for leaving work to smoke. Leo LaMotte, regional director of the CIO's United Automobile Workers, said "I don't know any of the factors involved in this dispute, but I am going to do everything in my power to get those men back on the job immediately."

Steel workers and others in war plants at Johnstown, Pa., found themselves without usual transportation yesterday morning when a strike tied up trolley and bus transportation. Members of the Amalgamated Association of Street Railway and Motor Coach employees, an AFL affiliate, walked out. Union members complained they were being sent home without pay when runs were not available or equipment was out of service and that working hours had been reduced from 56 to 48 hours a week.

REPORT INDICATES ROMMEL REMOVED FROM AFRICAN WAR

would not entrust the defense of Italy to any Italian general and that Rommel would be the most likely choice on the basis of reputation and all-around achievement.

It is pointed out also that Rommel long had been a personal friend of Hitler and that Hitler was likely to be lenient with a field marshal as distinguished from an ordinary general.

While there is a possibility that Rommel has been wounded or killed, no intelligence to this effect has reached the allied forces and the German propaganda has not seized on his fate — whatever it may be — to salvage something for its own use on the African de-

NEARING GOAL

CEAR RAPIDS, Ia., April 24—(P)—Secretary of the Treasury Henry Morgenthau, Jr., announced at a press conference today that the Second War Loan campaign was within a billion dollars of its \$13,000,000,000 goal. The drive closes April 30.

Up to last night bond sales since April 1 had totaled \$12,014,000,000, he said, of which \$9,276,000,000 was from non-banking sources and \$2,738,000,000 from banking sources.

Morgenthau, who came to Cedar Rapids to lend a hand-selling rally tomorrow and participate in a nationwide radio program, said his itinerary had been extended to include Portland, Ore., Seattle, Wash., and San Francisco, Calif. Originally he had planned to return to Washington from Cedar Rapids.

PASSES QUOTA

RICHMOND, Va., April 24—(P)—The Fifth Federal Reserve district has passed its Second War Loan campaign quota of \$350,000,000 assigned by Treasury department for sales to investors other than commercial banks, it was announced tonight by Hugh Leach, chairman of the War Finance committee in this district. Purchases of the close of business Friday night total \$353,685,432.

Four of the five states in the Fifth district are over the top, with Virginia and the District of Columbia considerably behind the minimum goals expected of them.

Maryland is leading the procession in bond buying thus far during the drive, with sales of \$145,722,376. Maryland's quota was \$119,400,000. North Carolina, with a quota of \$32,000,000, has run up bond sales amounting to \$65,581,161; West Virginia, sales \$29,286,696; quota, \$29,000,000; South Carolina, sales \$25,101,951; quota, \$23,000,000; Virginia, sales, \$57,227,468; quota, \$42,000,000.

Navy casualties total 24,926 made up of 7,147 dead, 4,665 wounded and 13,144 missing.

OWI Director Elmer Davis last night expressed belief "the Tunisian operations all told have probably cost our army nearly 10,000 in killed, wounded and missing." He said fewer than 2,000 men were lost in the Moroccan and Algerian landings, and asserted the statement by Roane Waring, American Legion commander, that there have been many more casualties in Africa than those announced, "appears to have been due to a misunderstanding."
