CHICAGO GRAIN

CHICAGO, Sept. 4.—(A)—Grains marked time today and finished the short session only slightly changed from yesterday's close. Interest in the market was light in view of the extended week-end holiday and the war situation in Italy. Prices generally slumped at the

start, but most of the ground was recovered in wheat before the close. Oats and rye tended to lag. At the close wheat was unchanged to 1-4 higher, September \$1.45 1-4, oats were 1-8-5-8 lower, September 72 1-2-3-8, and rye was 1-2 lower to 1-8 higher, September \$1.01 5-8-3-4.

Reports of somewhat more favorable weather in areas suffering from drought brought a little seliing into all the pits. The trade s awaited the government crop report, due next week, to see if it would confirm the estimates of private crop experts that lack of moisture had resulted in a decline in corn crop prospects over the past month.

Wheat drew support late in the session on a report the Commodity Credit corporation was purchasing spring wheat at Minneapolis, where prices were said to have declined to the loan level. The CCC cannot pay above the loan price for the wheat. Some sales also had been made to the government agency at Kansas

City, it was reported.
