Perspiring Feet Dry and Sweet

Excessive perspiration often makes your feet uncomfortable—socks or stockings damp, as well as causing disagreeable foot odors. Try dusting your feet and shoes with Allen's Foot-Ease. Easy—quick—convenient. It acts to absorb excess perspiration and prevent odors. If you are breaking in a new pair of shoes or if you are wearing an ill-fitting tight pair, there's nothing like Allen's Foot-Ease to relieve the friction that makes feet feel so uncemfortable. For real foot comfort, be sure to ask for Allen's Foot-Ease today! At all druggists.
