

### SCHOOLS TO NOTE WAR CHEST DAYS

#### Students Will Be Informed Of Various Functions Of Chest Agencies

Tomorrow and Tuesday are War Chest days in all New Hanover county schools.

These two days will be observed with all schools setting aside a portion of their regular class periods as an educational feature, during which time the Community and War Chest functions and needs will be presented to the pupils.

The purpose of this observance is to acquaint pupils in all grades of the work done by War Chest organizations, and the responsibility that a community owes to these organizations. Students will be invited to participate in the giving program of the War Chest on Tuesday, November 23rd. Some of the schools will hold special assemblies with some of their own students making brief presentations on the work of some of the agencies.

H. M. Roland, superintendent of schools, urged that all teachers participate heartily in the plan and said, "this educational program is not designed to raise funds from the students as this is entirely a voluntary program, and pupils may contribute whatever they choose to the War Chest."

"Of greater importance is the fact that our school children should know what a Community War Chest is, what its functions are, and the needs that it serves, so that when they take their places in the civic life of a community, they are familiar with the work being done by welfare organizations."

A reprint of "true comics" containing a special National War Fund appeal has been distributed to all pupils. Meanwhile, Mr. Roland said, "the campaign among the teachers is progressing satisfactorily, and that a complete and full report was expected by Tuesday night."

### WALLACE WORKING FOR RENOMINATION

#### Has No Intention Of Accepting Verdict Of Party's 'Inside Men'

By JACK BELL  
(Head of The Associated Press  
U. S. Senate Staff)

WASHINGTON, Nov. 20.—(AP)—Henry A. Wallace is carrying on an unique campaign for renomination as vice president on the personal assumption that President Roosevelt will be a candidate for a fourth term.

"Although he reputedly has been 'scratched' from the race by administration insiders who feel he would lose in a vote-getting value in 1944, Wallace has no intention of accepting their verdict. He is out to prove to President Roosevelt that he represents labor and liberal elements in the Democratic party that must be reckoned with at the next national convention.

Thus far his efforts largely have been confined to speeches in which he has proclaimed the century of the common man, has lambasted "American Fascists," has attacked international cartels and his call for post war government planning to guide American participation in world rehabilitation.

These are ideas that Wallace has been expressing for a long time—as far back as his editorship of an Iowa farm paper—and they represent what he views as his No. 1 mission in life—to stir public opinion in support of liberal policies. His present office gives him a forum for their expression, and that is one of the chief reasons he wants to keep on being vice president.

These speeches were undertaken, by Wallace on his own initiative and without any prior suggestions from the president. Where they have contained references to foreign affairs or possible controversial matters, they were cleared at the White House. In some cases, however, the president knew only

### TRUCE ENDS

WASHINGTON, Nov. 20.—(AP)—A three-year truce between the Justice Department's Anti-Trust division and the giants of the movie industry ended today, leaving both sides complete freedom of action for any battles ahead.

The truce resulted from a consent decree entered in Federal court in New York, Nov. 20, 1940. All that remains in effect is machinery for the arbitration of exhibitors' complaints.

Under the consent decree, the five integrated companies agreed to discontinue or curtail certain practices which the Anti-Trust division criticized, and the division agreed in return to take no action under the Anti-Trust laws during the three years.

in a general way what the vice president was going to say. The crowds for most of these speeches have been brought together largely through the efforts of CIO and other labor organizations. Democratic party leaders have had practically nothing to do with such meetings as those he addressed in recent months at Detroit, Chicago and Dallas.

### Western Cartridge Firm Welcomes Investigation Of Its Hiring Practices

EAST ALTON, Ill., Nov. 20.—(AP)—The Western Cartridge company asserted today negroes were not employed at its East Alton plant because of the hostile attitude of residents in the area, and the firm said it welcomed an investigation of its hiring practices.

Dean William H. Spencer, regional director of the war manpower commission at Chicago, requested such an investigation. In a letter to Elmer Henderson, regional director of the president's committee on fair employment practices, Spencer declared Western Cartridge company never had hired a negro in the Illinois plant.

### Limit On Holiday Calls Asked By Phone Official

In order to assure war calls the fastest possible service, the public has been requested by W. B. Bryson, manager of the Southern Bell Telephone and Telegraph company, to refrain from making telephone calls during Thanksgiving and the holiday week-end.

"It is not our wish to deprive the public of holiday greeting calls," Mr. Bryson commented, "but our facilities are already overcrowded and any additional load might seriously affect the nation's war business. It is also true that service men and women over the country will want to call home, and everyone will want them to receive the best service possible.

### Russell To Open Drive For FSA Funds Monday

WASHINGTON, Nov. 20.—(AP)—Another strenuous struggle to provide funds for the farm security administration will get underway Monday under the leadership of Senator Russell (D Ga.).

Russell said today that Frank W. Hancock, newly-appointed FSA administrator and R. W. Hudgens, his assistant, would be called before a senate agriculture appropriations subcommittee to explain their request for \$6,500,000 in administrative funds and \$37,500,000 in borrowing authority to carry the agency over until next June 30.

"I think the subcommittee and the full committee will support the appropriation," Russell said. "Certainly in the midst of war, with the vital need for food, the little farmer is entitled to rehabilitation loans to enable him to produce crops."
