### TREASURE HUNT

## CALLING ALL STAMP ALBUMS TO JOIN THE 4th WAR LOAN

Once again, the children of our community have rallied 'round the flag by enlisting to put the 4th War Loan over the top. Prepare to welcome them in your home, and get ready to participate in the nation-wide Treasure Hunt aimed at unearthing the "hidden treasure" of unfilled Stamp Albums which have accumulated in desk drawers and old purses; in last season's suit pockets, and which are just carried around day after day but never completed!

The Treasure Hunt has been planned to help you convert those Stamp Albums into ammunition—or other weapons of war—by turning them into War Bonds between the

10th and 15th of this history-making month of February! It's amazing to realize that Uncle Sam's bookkeeping shows that about 2½ billions of dollars can be raised to help win the war just by bringing those idle Stamp Albums to life!

That's a huge sum of money — a sum which can shorten the war by many hours, and bring your loved ones home sooner from the fighting front . . . maybe save their very lives. If you have an unfilled Stamp Album, part of that money is in your hands, giving you the power to play an active part in Victory! Join the Treasure Hunt now, and be ready when the school children appointed to your home ring the bell!

New Hanover's Quota

BUY AN EXTRA WAR BOND NOW!

Before you say "can't afford to"—about buying another \$100 Bond during the 4th War Loan—stop to think that one ton of bombs dropped on the Nazis or Nips can save the lives of 10 of our own invasion soldiers. One or more of that 10 may be someone dear to you. Isn't his life worth many times \$100 to you? While he sacrifices his life, all you're asked to sacrifice is a few dollars—just for a while—because after Victory is won and those Bonds mature they will be worth even more cash than you pay for them. A \$100 War Bond costs you just \$75 now—don't let your failure to buy it cost the life of someone you want to see come home!
