Reds Take 50 Villages; 35 Miles From Austria

LONDON, Thursday, Dec. 7. —(P)—The Red army scored gains ranging up to 16 miles yesterday on the southern approaches to Budapest west of the Danube river, as Russian front dispatches placed Soviet vanguards within 35 miles of the Austrian frontier.

The Russian war bulletin said the Third Ukraine Army captured 50 places in the drive on Budapest, including Racalmas, 28 miles south of the Hunga-rian capital. The Germans said they had abandoned Ercsi,, only 13 miles south, and asserted the Russians had crossed to the Danube's west bank from Csepel island below the capital.

Units of the Second Ukraine Army are entrenched solidly on the 30-mile island in positions only six miles from Buda-pest's outskirts. Racalmas is
