LABOR SHORTAGE DELAYING RAILROAD STOCK DELIVERY

WASHINGTON, March 31.—(AP)—A shortage of manpower rather than materials is the principal factor delaying the delivery of new rolling stock to the nation's war-burdened railroads.

Railroad officials made this clear today, explaining that, for the most part, allocations of materials have exceeded production capacity. And it's lack of sufficient manpower that limits production capacity.

Early this year the railroads had hoped for the delivery of 50,000 to 55,000 new freight cars of all types in 1945, but now expect to receive 45,000 to 50,000.

Asked if military demands for railroad equipment had played a major part in retarding the delivery of rolling stock to the railroads, one official said demands for men for the army and navy had been far more important.

"If we had the manpower," he said, "our shops could produce all the equipment needed for the army, lend-lease and our own needs."

Most lend-lease shipments have gone to Russia, although some now reportedly are going to France, where the railroads must be restored as a first step in solving the country's economic ills.

PRICING CHARTS MUST BE FILED

The New Hanover War Price and Rationing board announced yesterday that base date pricing charts, required under the new retail apparel and house furnishing regulation No. 580, must be filed with the Raleigh District OPA office prior to April 20.

The base date pricing chart will consist of the retailer's costs and selling prices for the items covered by the regulation which he offered for sale on March 19, 1945, the "base date." Three copies must be prepared, one to be kept by the retailer and the others filed with the OPA.

The regulation, issued to provide a simpler method for fixing retail ceiling prices and stabilizing them, applies to retailers of men's, women's, children's, or infant's wear, shoes, household textile items, and other specified articles.

Officials said some repricing will be required by most retailers on a relatively small number of items on April 20, the effective date of the regulation. The repricing is expected to benefit consumers and also retailers, as this will be a one-time job for the latter.

POLES TAKE DANZIG

LONDON, March 31.—(AP)—The Soviet-sponsored Warsaw government has decreed the incorporation of Danzig into the territory of Poland, the Lublin radio announced tonight. Premier Stalin's announcement of Danzig's liberation said the Polish flag had been hoisted over the former Free City.

HITLER MAY TRY SUICIDE CHARGE

BY EDWARD D. ZALL
WITH THE U. S. FOURTH ARMORED DIVISION, March 30.—(Delayed by Censor)—(AP)—German Maj. Gen. Hans Boehlsen, who was captured by the Fourth Armored division yesterday, predicted that Adolf Hitler would try to lead a final suicide charge in which he would die in order to be remembered by the people.

"The Fuehrer wants to become a martyr and I believe this is the way he will try it if he can get enough martyr-minded SS troops to go with him," said the captured general.

With his own family safe in Allied-held territory, the general talked volubly, presenting himself as a man who didn't think much of Hitler, although he still wore the Knight's Cross of the Iron Cross at the throat of his tunic just below his jiggling Adam's apple.

"The common German soldier who is dying now in a lost cause has more loyalty to the fatherland than Hitler," he asserted.

Boehlsen expressed belief that the Nazi hierarchy, in an effort to prolong the party's life as long as possible, would take to mountain hideouts ringed by extra select SS Elite Guard forces but the Wehrmacht (the regular army) will have no part in this fight and the German people will not have a hand in it.

He said that in his opinion "there is no qualified organized government which can stop the war or take over power before the destruction of Germany. The SS has complete control of all functions throughout the country."

Gardner Declares High Wages Are Essential

SHELBY, March 31.—(AP)—O. Max Gardner, chairman of the advisory committee on war demobilization and reconversion, told the Shelby Rotary club yesterday that high wages, high production and high taxes are essential to successful conversion to peace time economy.

Reconversion must follow as rapidly as possible in the wake of dwindling war production to avoid an economic shock that would upend the nation's economy, said Gardner, a native of Shelby and former governor of North Carolina.

Gardner predicted victory in Europe before April is ended, that thirty days later peace proposals will be made by Japan and that the nation's 350,000,000 debt will have to be amortized over a period of 100 years.

The more than 800,000 workers in the war-converted automobile industry are producing one-sixth of the total value of war goods.
