HELPS TO CONTROL . UNDERGROUND INSECTS

Such as cutworms, beetles, maggots, grubs, which become troublesome to the Gardner by feeding on new shoots of young plants. TREAT SOIL, SEED, PLANTS In many cases destruction can be reduced by treating the soil, seed and plants with dry Carbola Dust. One pound for each fifty square feet in the average garden is usually sufficient. Very economical. Safe to use. Not a poison, Also is applied directly in the row. Helps to control potato scab and wireworm, cabbage and radish maggot. Helps prevent crows from picking seed corn. Also very effective and economical when used as a dry dip on
