

TRUMAN RECEIVES ACL LABOR DATA

An emergency railway labor panel reported to President Truman yesterday that the Atlantic Coast Line railroad should include in its agreement with the Brotherhood of Railway and Steamship clerks a large number of individual positions which the carrier has contended should be excluded, it was learned here yesterday in an Associated Press dispatch from Washington.

The board held that the road's past practice of dealing with a large group of employes on substantially different terms and conditions from those applicable to the clerks could be productive of much "discord and factionalism" and should be eliminated.

The board recommended that the carrier's proposal regarding formalization of a sick leave plan, which differed slightly from that advanced by the union, be made part of the agreement.

The union's request that employes accustomed to being allowed Saturday afternoons off be paid when required to work Saturday afternoons, was denied. The board said the existing agreement calls for a 48-hour week and the clerks' proposal would, in effect, compensate employes twice for the same work or time.

The board was headed by Frank M. Swacker, New York City attorney. Other members were Norman J. Ware, Hartford, Conn., industrial relations consultant, and Walter Gilkyson, New Hartford, Conn., attorney.

Gov. R. Gregg Cherry has acknowledged the endorsement by the city and county governments of R. B. Page, publisher of the Wilmington Star-News, to represent New Hanover county on the State Ports authority, it was announced yesterday, by Thomas K. Woody, clerk of the county board.

The governor said he was glad to receive the endorsement of Mr. Page and gave assurance that the recommendation would receive "careful consideration."

A resolution setting forth the county commissioners' desires went to Governor Cherry following a conference with City Manager A. C. Nichols, who explained that Mr. Page had been selected for recommendation by the City Council.

The resolution follows: "Upon motion of Mr. Hall, seconded by Mr. Gardner, the following resolution was adopted: "Whereas, a State Port Authority was created by an act of the General Assembly of North Carolina, 1945, and

"Whereas, the act provides for the appointment of its members by the governor, one each to represent New Hanover county, Morehead City and Southport, and four from the State at large, and "Whereas, Mr. R. B. Page, publisher of the Wilmington Star-News has for many years past, given of his time, at his own expense, to the interest of the development of our community and was an outstanding force in securing the airport for Wilmington, and we feel that he is capable and fully qualified to occupy a seat on the State Port Authority;

"Now, therefore, be it resolved that we unanimously recommend to his Excellency the Honorable R. Gregg Cherry, Governor of the State of North Carolina, the appointment of Mr. R. B. Page to the North Carolina Port Authority to represent New Hanover county."

"I, Thos. K. Woody, clerk to the Board of County Commissioners of New Hanover county, do hereby certify that the foregoing is a true and correct copy of a resolution adopted by the said Board at the regular meeting held Monday, April 9th, 1945."

"THOMAS K. WOODY, Clerk, Board of County Commissioners of New Hanover County, North Carolina."

16 Motorists Arrested In Brake-Check Drive

Sixteen Wilmington motorists have been arrested by police in the past two days as a result of the Brake-Check program. Police Chief C. H. Casteen revealed yesterday.

At the same time, it was learned that Judge H. Winfield Smith, of recorder's court, is penalizing the negligent automobile owners and requiring them to bring written evidence to the court that faulty brakes have been corrected.

A total of 440 motorists have been stopped by police the past two days and had brakes on their vehicles checked, Chief Casteen reported. Of this number, 110 were warned to have their brakes "put in condition."

The 16, who had to go to court, were found to be operating vehicles with brakes that "would not stop the cars at any reasonable distance at all," the police chief said.

Chief Casteen renewed his appeal for motorists to have brakes checked and to offer cooperation with officers if stopped "as the purpose of the drive is for the safety of life and property."

FORT WAYNE, Ind., April 18.—(U.P.)—Mrs. Mertle Evans thought she had her seasons straight, but early blooming dahlias got her mixed up. Last fall, she planted a dahlia bulb in a pot and placed it outside of her house. Before the winter had completely vanished, she noticed it pushing through the dirt. Just as spring rolled around, the plant burst into full bloom. And that wasn't supposed to happen until late summer or early fall.
