High Dignataries Of Episcopal Church To Take Part In Services This Morning; Bishop-Elect Has Five - Point Program

Outlining a five-point program for his tenure as bishop of the Diocese of East Carolina, Bishop-Elect Thomas H. Wright, D. D., stressed last night, on the eve of his consecration, the need for a "caring diocese . . . a people united in Christian consideration of other races and denominations."

Dr. Wright said that he hoped that the diocese would become "world-minded" with particular emphasis on the missionary work of the church

Mr. Page is one of several eastern publishers and editors who will make the trip in the role of correspondents.

He will leave early this morning for Miami, Fla., to board one of the large planes of the Naval Air Transport command Saturday afternoon for the flight to Panama. There he will be assigned to one of the units of the fleet and is expected to return about Oct. 21. Arrangements for the trip were made through the Navy's office of Public Relations.

According to word received here sometime ago, included among the many warcraft are six-two destroyers, a destroyer escort and three submarines—scheduled to visit here during annual observance of Navy day late this month. If details can be arranged, then Mr. Page may return to Wilmington aboard one of the destroyers.

Occupation Headquarters To Hold Leaders Responsible

TOKYO, Oct. 4.—(A)—The Japanese government got American orders today to remove their frigid hand of "thought police" from the nation and grant full speech and religious freedom—steps so - · · lutionary that one occupation official said they might produce violence.

General MacArthur ordered the imperial government to release all political prisoners, numbering about 3,000, by Oct. 10; abolish all legislation hamstringing personal freedoms; disband the brutal political police, and fire Home Minis-ter Iwao Yamazaki from office.

The order for the sweeping social reforms, striking at the root of Japanese feudal traditions which were held responsible for the Pacific war, was delivered through the central liaison office, communications channel between the Japanese government and MacArthur's head-
