

NURSERY SCHOOL PROGRAM GIVEN

A three-part program was presented by 14 children of the nursery school of the First Presbyterian church last night after the regular church night supper. With Alice Crowe acting as announcer, the program was as follows:

Part I: Father, We Thank Thee, group singing; We Know a Little Pussy, group singing; The Big

Buying Public Is Now "Economy" Conscious

The average American household stretches pocketbooks for added savings by buying big sizes in most everything and it works the same way when you buy the 100 tablet size of St. Joseph Aspirin for 35c as you get nearly 3 tablets for 1c. For handy pocket use, remember world famous 12 tablet package for 10c. None finer, faster or more economical. The choice of millions. Always demand pure St. Joseph Aspirin.

Policeman, Beth Troy; The Snowman, Bobby Barefoot, and Choo Choo Whistle and Blow by Caroline Walker.

Part II: I Know What I'll Do For Jesus, group; Bible verses, members of the group; and A Child's Prayer, Betsy Jewett and Jim Wenberg.

Part III: The Busy Postman, Julene King; The Calico Cat, Rosslyn Troth, and Oats, Peas, Beans and Barley, group game. After the program, parents and friends will visit the nursery quarters where handwork made by the young students will be on display.

The school is operated by Mrs. Charles King and Mrs. Ross Troth, in connection with the church staff and is open to all children of the community.

ESLER FIELD SURPLUS
WASHINGTON, Feb. 7. — (AP) — OGTN in a Rep. Allen (D-La) was advised today that Esler Field near Alexandria, La., had been declared "surplus to the needs" of the Army air forces.

TUCKER TO LEAD TEACHER GROUP

At a meeting of the Brunswick county unit of the North Carolina Education association held recently in Leland, Glenn M. Tucker, principal of Leland High school, was elected president to succeed Mrs. Gay McKeithan, and Mrs. Eva Mae Knox, second grade teacher, was elected vice-president.

A discussion by the group of pedagogs on the proposed Merit System was held. No definite action was taken by the association until the teachers went into the matter thoroughly. The teachers approved the recommendations of the Governor's Commission, the main point being a study of the whole field of salary schedules where the Merit System is now being practiced, and that every precaution be taken to make the system, if adopted in the state, the best that could be offered to the teachers.

The new Brunswick president, who is a member of the State Legislative committee of the NCEA, emphasized that teachers should neither adopt nor disapprove the proposed system while it is in a definite period of study, but that all teachers should seek to know the true worth of any proposal made which would affect the lives of children, and that after a careful and thorough study, they should then take a definite stand for or against the system.

The tentative statement of working policies and principles of the Governor's Commission on Study of Merit Rating of teachers, which the NCEA committee has accepted as a study procedure, has been mimeographed and distributed to all Brunswick teachers for further consideration.

Accidents are more costly in human lives than war. Total combat deaths in World War II were about 265,000 and about 650,000 were wounded; while during the same period accidents on the home front killed 355,000 persons and injured 36,000,000, of whom 1,250,000 suffered some permanent disability.
