PRICE OF SUGAR MAY BE ADVANCED

WASHINGTON, Feb. 12.—(U.P.)—The government is considering a plan to ease the stocking and shirt shortage by forcing manufacturers to sell them promptly.

The civilian production adminis- tration, it was learned, is drawing up an order which would limit manufacturers' inventories to a 30-day supply of suits, shirts, trousers, shorts and rayon and nylon hose. Other items may be added to the list later.

One CPA spokesman said even a 30-day sale period was too long. He recommended that inventories be limited to a seven days supply.

Improvement In Sugar Stocks Now Anticipated

WASHINGTON, Feb. 12.—(U.P.)—A government study showed today that sugar stocks in the United States are at their lowest since early 1942 but are expected to improve by spring.

Brightest spot in the sugar out- look is Cuba where the new crop may reach 4,750,000 tons, compared with a 1945 output of 3,925,000 tons. Some early 1946 Cuban sugar is now moving to the main- land under an "interim contract" recently signed with Cuba.
