

### KAISER ACQUIRES ALUMINUM PLANTS

### West Coast Builder Enters Field Through Lease Of Government Factories

WASHINGTON, Feb. 21—(AP)—Henry J. Kaiser entered the aluminum field Thursday, leasing two

huge government-owned plants to turn out the lightweight metal for automobiles. The War Assets corporation turned down bids from the Reynolds Metals company which it said might have yielded a greater return to the government for the first four years, in order to put Kaiser firms into the field with Reynolds and the Aluminum Corporation of America. "These leases will place a third producer in the primary aluminum industry in continuation of the policies of the War Assets corporation

### COOLEY SAYS PRICES OF FARM COMMODITIES TO JUMP WITH WAGES

RALEIGH, Feb. 21—(AP)—In a telegram received here Thursday by State College Extension Service editors, Representative Harold D. Cooley (D-N. C.), member of the House Agriculture committee, said that increases in industrial wages "will necessitate a comparable increase in the price of agricultural commodities."

The wire said that the 65-cents-an-hour minimum wage bill, recently reported to the Senate floor, "will be considered by the Senate at an early date and will, in all probability, pass by a substantial majority." Cooley expressed the opinion that the bill would also pass in the House and meet quick approval by the President. "When the wage bill comes before the House," Cooley added, "the Pace parity bill (to place price floors under farm commodities) will be offered as an amendment."

#### APPOINTED

RALEIGH, Feb. 21—(AP)—Appointment of Holt McPherson, managing editor of the Shelby Daily Star, to membership on the North Carolina Merit System council was announced Thursday by Governor Cherry. McPherson fills a vacancy left by the resignation of Glenn Pennington, of Thomasville, and his term will expire on April 8, 1951.

to promote competition in aluminum," the announcement said. It noted that "the Kaiser companies propose to use aluminum extensively in the production of automobiles, a field which had hitherto made very limited use of aluminum." This, it added, will promote the market for aluminum and make it easier to dispose of other government aluminum plants.

## GOOD COOKS prefer it

Clean, fresh Dixie Crystals Sugar creams so easily, so smoothly, dissolves so quickly, good cooks prefer it for dainty desserts, cakes, and icings.

## When it rains it pours
