ADEQUATE AUDITORIUM Mr. A. C. Nichols city Mgr. Wilmington, NC

Dear Sir.

If eight hundred thousand lars is to be put into an auditorium it should be modern and take care of all the city's needs. The city has been without a dance floor for a long time large enough for various civic clubs to bring popular orchestras to Wilmington during the winter months. Lumina at Wrightsville beach will take care of this during the summer months, In planning this auditorium spe-cial attention should be given to this idea; if a modern dance floor with a balcony for spectators is provided in planning the city will receive much revenue from dances alone that will go a far ways in the upkeep of the auditorium. venture to say that during the win ter months the dance floor could be rented once a week to some civic club in Wilmington at a rate of one hundred per night, that is if proper planning is made in audi.
