FOR MORE AND BETTER . . .

Telephone Service

MORE equipment-more people-more of everything is being added as fast as possible to furnish more and better

During the year, central effice equipment and other types of telephone plant will be added in nearly every place served by us. In many other places new buildings will have to be constructed or enlarged and equipment installed, before those now waiting for telephones can be served.

In the meantime, central offices are crowded with more calls than ever before. As a result, you may sometimes experience delays on your calls.

When that happens, you can help by answering your telephone promptly and when you make a call by giving the other party at least a minute's time to answer before hanging up-It will also help if you will always make sure of the number by looking it up in the directory before making a call.

Telephone folks are trying hard to give you good service with a smile and appreciate your cooperation.

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY
