CHAMPION WRECK ATTRIBUTED TO RAIL SPLITTING

The rail, which broke Wednesday under the crack Miami-bound Champion, derailing some sleeper cars two miles north of Rowland, had been inspected only two days before with no defects noted. C. G. Sibley, general manager of the Atlantic Coast Line railroad, said here last night.

One woman was injured slightly, according to Sibley. However, she and the other passengers continued their journey on an improvised train, he added.

A Sperry motor car had passed over the Rowland section of the line on November 4 and no defects were discovered in that particular rail, he said. The particular rail was a 100-pound section manufactured in 1937 and laid the same year.

Sugar May Soar

WASHINGTON, Nov. 6. —(U.P.)—The government Wednesday granted beet sugar growers in this country and the sugar industry in Hawaii, Puerto Rico and the Virgin Islands price increases which officials say make a boost in retail sugar prices almost a certainty.

Stabilization Director John R. Steelman ordered the Agriculture department to put into effect a price support program for domestic beet sugar which will pay producers an average price of \$14.50 per ton for the 1947 crop. This is an increase of \$1 a ton over the current support price.

At the same time, he authorized the department to revise its 1946 price support programs for producers in Hawaii, Puerto Rico and the Virgin Islands to give them equal treatment with Cuban producers.
