WE, THE WOMEN Marriage Is A Challenging Partnership

By RUTH MILLETT NEA Staff Writer. If the book by Rudolph Dreikurs, "The Challenge of Marriage," is as chock full of sound, mature advice as are pre-publication excerpts from it, it is the best wedding gift you could buy a young couple. Even the title will probably be something new to young folks who have grown up in an era when marriage is commonly regarded as the romantic ending of a live story, rather than as the beginning of a challenging lifetime partnership. Certainly, there are pointers any young married couple might well take to heart: 1. "It makes no difference who is right or wrong. Each one's willingness to see the other's point of view is a great deal more likely to lead to an agreement between the two than is each one's defense of his own." 2. "Whenever any conflict arises, the first decision which both parties make—definitely although unconsciously—is whether to use these incidents as an occasion to fight, for hurting and being hurt, or whether to try sincerely to solve the problem."
