

COMMITTEE KILLS VOTING MEASURE

(Continued From Page One)

to vote; and that maturity comes with responsibility.

Enough Bonds

House judiciary was tied, 8 to 8, on the funeral directors bill and chairman Moseley of Guilford cast the killing blow. Proponents, led by former Governor J. B. Broughton, said the bill would promote ethics. Committeemen who opposed it said there already were enough bonds in the state.—21.

The maximum-hour, minimum-power bill evoked lengthy debate in committee. It was supported by Labor Commissioner Forrest Shuford, and opposed by representatives of industries who said it was too far-reaching and would give the labor commissioner too much power.

A measure to set a 48-hour waiting period between the time of application for a marriage license and its issuance was introduced by Rep. Mull of Cleveland. State-wide, it would affect residents and non-residents.

Both the Senate and the House received bills calling for a constitutional amendment vote on the question of eliminating clauses setting debt limitations for the state, counties and municipalities.

A bill by Rep. Umstead of Orange would allow teachers an increment of \$10 for five months for attending summer school for six weeks; a \$10 a month increment for nine months for those who go to summer school for 12 weeks.

Under a measure by Reps. Hardison of Craven and Harris of Pamlico, it would be a misdemeanor for filling stations to operate between 10:30 a. m. and 1 p. m., on Sunday.

The house was told by Rep. Worthington of Pitt that he had learned no change could be made in already announced tobacco quotas, so his joint resolution to petition authorities to cut the bright leaf quotas by 10 per cent in the face of a possible surplus and decreased foreign purchases was sent to the agriculture committee where it probably will die.

COURT TO HOLD CRIMINAL TERM

(Continued From Page One)

charged with the slaying of Julius Frain Henderson at Gainer's service station in Seagrove last fall.

Other murder cases include: Leon (Scooper) Gause, Negro, charged with the slaying of a Brunswick county farmer, Jim Williams, last year. The trial was ordered to New Hanover on a change of venue. He was convicted here and sentenced to die in the state's gas chamber at Raleigh.

However, a review of his case by the Supreme Court sent it back to the lower court for a new trial. Burney Smith, Wilmington Negro, is scheduled to go on trial charged with the slaying of Elmer Stukes about three weeks ago. According to officers, Smith allegedly shot Stukes after an argument. Smith later gave himself up, and said that he shot Stukes in self defense.

The fourth case, is one charging Thomas J. Pittman with the fatal wounding of Leroy Williams, both Negroes, in Love's Alley here on Jan. 13, 1941.

After the alleged shooting, officers said, Pittman fled the state and was apprehended in Washington, D. C. He was returned to Wilmington Jan. 3 by Sheriff's deputies.

TRUMAN SELECTS NEW AMBASSADOR

(Continued From Page One)

Zinsser, and three children, Stuart, Peter and Sharon.

He studied at Amherst college and Massachusetts Institute of Technology and at one time in his career he also taught at Amherst. He is a trustee of the Rockefeller Foundation General Education board, of the Institute for Advanced Study at Amherst, and of the Alfred P. Sloan Foundation, and is president and a trustee of the Academy of Political Science.

A veteran of World War I, he saw action in France in the Argonne and Flanders and was decorated for gallantry.

DOUGLAS SURPRISED AT HIS APPOINTMENT

NEW YORK, Feb. 26.—(AP)—Declaring that his appointment as ambassador to Great Britain came as a complete surprise, Lewis W. Douglas, 52-year-old Arizona, said today he accepted the appointment because he considered it a great honor and "a duty."

He said at a news conference that the offer to represent the United States at the Court of St. James' was tendered to him by telephone by Secretary of State Marshall at the request of President Truman, and that after several days of consideration at his Arizona home he accepted it.

Douglas said he probably would go to Washington for a briefing on the British situation and the tasks involved in his new post. He indicated he would leave for England immediately thereafter.

Touching on Britain's present economic crisis Douglas declared that the economic position not only of Britain but of all important countries was of profound consequence to all the world.

He expressed belief that Britain's current crisis stemmed directly from "exactions on all resources, human and otherwise, and the terrific suffering during the last war."

Were Stomach Ulcer Pains Nansen's Waterloo?

The great Napoleon who conquered nations was himself a victim of after-eating pains. Those who are distressed by stomach or ulcer pains, indigestion, gas, heartburn, burning sensation, flat and other conditions caused by excess acid should try Uga. Get a 25c box of Uga Tablets from your druggist. It will do more to relieve your distress than get DOUBLE YOUR MONEY back.

Send 25c to Saunders Drug Store and Drug boxes everywhere.

Giving Final Drive Instructions

H. R. Emory, chairman public employes division and Miss Marian Everette, representative of the National Red Cross, Southeastern area, are pictured as they gave final instructions to workers in the city, county, federal and school employe group yesterday during their kickoff meeting for the 1947 Red Cross fund campaign. (PHOTO BY CAROLINA CAMERA).

TALMADGE FOES FORM NEW PARTY

(Continued From Page One)

any tribunal "except that established by those now in control."

The white primary law was passed by the legislature last week. It freed the party primaries from state control and left them to rules and regulations formulated by the party.

Continuing the attack, the resolution said the act "denies to those who participate in such primary the protection of the laws, or recourse to any tribunal except that established by those now in control, who, like all tyrants, make the rules, interpret the rules, obey the rules or violate the rules, according to their own whims and interests."

SMALLER INCOME TAX SLASH SEEN

(Continued From Page One)

than \$750,000,000 away from the two services, if that much.

Involved also were the questions of how much of any savings should be turned into reduction of the national debt and how much should be used to counterbalance a slice in individual income taxes.

Chairman Knutson has proposed a 20 per cent tax cut, which would use up \$3,500,000,000 of the spread between income and expenditures.

Taft has proposed the same overall amount, but has said no tax reduction should become effective before July 1.

Senator Barkley (D-Ky.), the minority leader, spearheaded arguments of several Democrats in debate that the Federal budget should be balanced and the public debt reduced before there is any cut in taxes.

Barkley asserted the House-approved \$6,000,000,000 spending reduction would cripple national defense.

Final adoption of a resolution by the Senate to trim president Truman's \$37,500,000,000 budget estimate by \$4,500,000,000 will necessitate sending the conflicting economy promises of Senate and House to a conference committee.

Taft predicted to a reporter a compromise figure of \$5,000,000,000 or slightly more would be reached.

The Senate vote put it on record as saying that government costs shall be reduced to \$39,000,000,000.

There is a tacit understanding—but no specific stipulation—among Senators that under a \$4,500,000,000 reduction only a relatively small amount would come out of the \$11,200,000,000 President Truman allotted to the Army and Navy.

The House pledge to whittle spending back to \$31,500,000,000, however, is understood to require a cut of \$2,250,000,000 in military and civil functions of the armed services.

He expressed belief that Britain's current crisis stemmed directly from "exactions on all resources, human and otherwise, and the terrific suffering during the last war."

Turn In Weapons

BERLIN, Feb. 26.—(AP)—Germans in the U. S. occupation zone turned in 8,270 firearms and more than 252,000 rounds of ammunition, nearly enough to equip an infantry division, during a recent weapons amnesty, an official announcement said today.

The sound-up of weapons in illegal possession of Germans preceded by two weeks the smashing of a widespread Nazi underground movement in the western zones of Germany.

Three light bomb throwers and 31 submachine guns were among the modern weapons turned in.

Along The Cape Fear

we fail to take advantage of the great attraction that Wilmington has in Greenfield Park.

The flowers there compare with any found in the South. And remember, it will not be long before they will be at the height of their glory.

So don't forget to mention the grand attraction we have in our thousands and thousands of azaleas in every letter you write to a friend living outside of the Port City.

And when all the other suggested special events have been reviewed here, we might get around to bringing back the No. 1 attraction of the Port City. The Feast of The Pirates.

RESORT DRAFTS EASTER PROGRAM

(Continued From Page One)

Final plans were drafted last night for the Carolina Beach Easter Sunrise service, it was announced by the Rev. Ben B. Ussery, pastor of the Baptist church.

Mr. Ussery, acting chairman of the program committee in the absence of Glenn Tucker, said that the main speaker had not yet been decided upon. However, the speaker was expected to be selected Friday.

The service will be held at the end of Hooper Ave. Music for the occasion will be furnished by the various church choirs of the village.

He said plans call for the erection of a platform on the strand with a cross behind the platform. Outside of the town crosses will be placed on the side of the highway, carrying out the theme, "Follow the Cross."

Mr. Ussery said that the committee hoped to interest both Wilmington, radio stations in carrying the program. Meanwhile, he said that plans call for the erection of an amplifying system to carry the story over the community.

PIPE CONCEALED GOERING CAPSULE

(Continued From Page One)

Goering entered Nuernberg with the poison concealed rectally. As soon as he was in his cell, he decided the German-type commode would be the safest place to hide a metal cartridge containing a vial of prussic acid.

There was a slight hump in the outlet pipe through which the water flushed and Goering gambled that the hump was high enough and the metal cartridge heavy enough so the container would not flush out. He put the cartridge in the recess and flushed the toilet experimentally several times. The cartridge stayed there.

Goering carried the cartridge to the courtroom with him many times, and his luck held. Although his cell was changed abruptly five different times in his absence, each time he had the cartridge with him.

Sometimes he carried the vial in his uniform pocket, sometimes rectally, and once or twice embedded it in the navel cavity.

He never told anyone about it, even his wife—but he assured her she would never die on the gallows.

The cartridge, green from corrosion, was found beside Goering's body when they came to take him to the gallows.

Nazi Leader Kept Lethal Cartridge In Outlet Of Commode

NUERNBERG, Germany, Feb. 26.—(AP)—Hermann Goering managed to cheat the hangman because he knew more about German plumbing than his American captors, a reliable source disclosed today.

The informant said that the former reichsmarshal managed to commit suicide in Nuernberg jail last October by taking poison which he had hidden in the toilet in his cell—a toilet which differed from those in the United States.

Goering bragged about outsmarting the Americans in a farewell letter to Col. E. C. Andrews, then the prison commandant, the source said. He gave the following version of that still unpublished letter:

Goering entered Nuernberg with the poison concealed rectally. As soon as he was in his cell, he decided the German-type commode would be the safest place to hide a metal cartridge containing a vial of prussic acid.

There was a slight hump in the outlet pipe through which the water flushed and Goering gambled that the hump was high enough and the metal cartridge heavy enough so the container would not flush out. He put the cartridge in the recess and flushed the toilet experimentally several times. The cartridge stayed there.

Goering carried the cartridge to the courtroom with him many times, and his luck held. Although his cell was changed abruptly five different times in his absence, each time he had the cartridge with him.

Sometimes he carried the vial in his uniform pocket, sometimes rectally, and once or twice embedded it in the navel cavity.

He never told anyone about it, even his wife—but he assured her she would never die on the gallows.

The cartridge, green from corrosion, was found beside Goering's body when they came to take him to the gallows.

CLUE INTRODUCED IN SLAVERY CASE

(Continued From Page One)

LOS ANGELES, Feb. 26.—(U.P.)—Mrs. Richard Roberts, wife of a Berkeley, Cal., research engineer, told a federal grand jury today that her mother held a tiny Negro servant in slavery for 30 years, allegedly because of an indiscretion with a member of the family.

The servant, Dora L. Jones, 37, was held in a secret San Diego hideaway as a material witness against Alfred Wesley Ingalls, 64, retired Massachusetts lawyer and legislator, and his wife Mira Elizabeth, 62.

The Ingalls were arrested in San Diego yesterday on a slavery charge and released under \$2500 bail each, Deputy U. S. Atty. William Ritzl indicated he would not ask for indictments until after next Wednesday's grand jury meeting to permit introduction of new evidence.

FBI agents said Mrs. Ingalls had kept the woman in penitence servitude for 30 years.

"I've known about it since I was born. Dora was my nurse," said Mrs. Roberts, who came here to testify.

She first realized something was wrong, she said, when she was quite young and living at the family home in Lynn, Mass.

"It was when I first went to public school and learned that people who work earn salaries," she said. "I thought the way Dora was being treated wasn't right and I told my mother so. She told me that special circumstances made this case right, but she never told me why."

Taking her ease for the first time since 1918, the five-foot, 90-pound Negro woman was hidden away in a San Diego home. The FBI will keep her hidden until the case, one of the first in California involving slavery since the Civil War, can be heard.

For years she has not spoken to anyone except members of the family. Police said she was fairly intelligent but cowritten timidly.

"She had practically no recreation and no friends," said Mrs. Roberts. "When I asked her why she put up with the treatment she got she said she was afraid."

Mrs. Roberts said she once heard screams, entered a room and found Dora badly scratched.

The Negro woman told officers she worked 16 hours a day at a house in the Lynn and Coronado, Cal., Ingalls' homes. When she was brought to California last year she was forced to sleep in the family car or bathrooms at what she called the way. She said she was employed as a maid by Mrs. Ingalls in 1908. Mrs. Ingalls, then married to Walter Harmon, was her former teacher.

BELGIANS RIOT IN BRUSSELS

(Continued From Page One)

ly fell backwards through a large plate glass window of a store front. Another cluster standing on top of an automobile dropped inside when the roof collapsed.

Automobiles were overturned, and the gendarmes opened ranks before the rush of the mob.

At that moment mounted police charged. The horses reared high and crashed into the pack of people. The force of the charge was spent after gaining a few feet. The cavalrymen fell back, and the torrent of humanity poured into Parliament Square.

New lines of mounted troops and armored cars with machineguns waited there behind the closed iron-gated gates. A volley of shots and the chatter of machinegun fire split through the roar. The firing appeared aimed over the heads of the crowd, but men sprawled on the wet cobblestones.

The mob reached as far as the gates but could go no farther.

One cabinet member, Albert Martineux, minister of health, was injured when he attempted to leave the building and was struck in the mouth by a club. He hastily retreated inside.

De Fraiteur, himself a former prisoner of war, told the cabinet, "Nobody regrets it more than I, and I do not blame the people. They have been waiting for more than two years for the remainder of the promised payment."

He said the total outstanding payment would be 4,000,000,000 francs (\$90,000,000).

Prime Minister Camille Huysman said the Government already had paid out 7,500,000,000 francs (\$170,000,000), and issued an order forbidding another demonstration scheduled for Sunday.

GROUND CRAFT REPORTED SAFE BY COAST GUARD

(Continued From Page One)

Coast Guard headquarters in Norfolk last night said the schooner, "Night Witch," which is aground off Topsail Point, is in no immediate danger.

The report said that the cutter "Agassiz" had been dispatched from Norfolk to the scene to offer any assistance that may be needed. Headquarters said that due to the shallow water at this point they had been unable to reach the grounded vessel.

An attempt will be made this morning, they said, to reach the two-master which went aground yesterday.

FOUR ACCUSED IN EXTORTION PLOT

the war. So the port business was crippled. The lack of convoys in itself took away business. Now the state wants to recoup."

He added it would cost the commission between \$250,000 and \$500,000 to maintain the yards in stand-by manner. If they were sold to the ports authority, he said, the state agency would be responsible for maintenance and "the government would save this expense."

BEVIN MISTAKEN, TRUMAN ASSERTS

(Continued From Page One)

WASHINGTON, Feb. 26.—(AP)—The White House, replying to British Foreign Minister Bevin, said today that America's interest in Palestine has nothing to do with politics and that President Truman was political-minded in urging entry of Jews into the Holy Land.

"Unfortunately and misleadingly," was a White House statement described the impression given by Bevin.

Bevin was not mentioned by name, but the statement cited "yesterday's debate in the British parliament."

It was then that Bevin said President Truman "spoiled" Palestine negotiations last October by issuing a call, during the congressional campaigns, for the immediate entry of 100,000 Jews into Palestine.

Bevin had added:

"I really must point out that in the international affairs, I cannot settle things if my problem is made the subject of local elections."

The White House had been silent until Press Secretary Charles G. Ross late in the day issued the statement asserting:

"The impression that has arisen from yesterday's debate in the British parliament, that America's interest in Palestine and the settlement of Jews there is motivated by partisan and local politics is most unfortunate and misleading."

The White House said Mr. Truman's statement today added that the United States position was communicated by President Truman to Prime Minister Attlee on Aug. 31, 1945, and made public here Nov. 13, 1945, with the establishment of the joint Anglo-American committee of inquiry.
