The King Is Dead---

LONG LIVE THE KING!

We regard the death of King George II as one of the greatest blows to our mother country at this time. The world has lost a great leader, for King George II was a patriot—and a Christian gentleman.

However, we are confident in the knowledge that the Great Nation of Greece will go FORWARD under the leadership of Prince Paul, who was sworn in as monarch Tuesday night.

We deem it appropriate at this time that all Greeks express their loyal gratitude and thanks to the fine citizens of these United States, who have "accepted" us as citizens... and pledge anew our loyalty to this, our adopted country!

Southern Bell Offers Arbitration To Avoid A Telephone Strike

The Southern Bell Telephone Company is offering to let a panel of citizens representing the public's interest along with a representative of the Union and one from the Telephone Company arbitrate wage rates on the basis of comparing our wage rates with the wages paid by others in local communities for similar skills and training. The Company also continues its offer to renew the present liberal contract until such arbitration can take place.

This offer is fair to everyone, we believe, and should avoid a telephone strike.

OUR WAGE POLICY IS TO PAY JUST AND FAIR WAGES

The Southern Bell Telephone Company believes that its employees should be well paid, and that their wages should compare favorably with those paid by other concerns in the communities we serve for work requiring similar skill and equivalent training. Since telephone rates are regulated by Public Service Commissions this policy is certainly fair and just to all concerned.

We earnestly desire to go as far as possible in meeting the wishes of our employees and the Union. But their demands must be practical and realistic. Already the earnings of the Company are such that we are appearing before the Public Service Commissions throughout the Southeast asking for increases in rates to help meet the costs of wage increases granted last year. THESE WAGE INCREASES FOR 1945 AND 1946 AMOUNTED TO APPROXIMATELY 26 MILLION DOLLARS.

UNION DEMANDS TOTAL \$69,000,000 A YEAR WOULD INCREASE THE AVERAGE TELEPHONE BILL \$3.30 PER MONTH

The demands of the Union for wages and related matters would increase our costs by about \$69,000,000 a year, AND WOULD MAKE OUR PAYROLL COSTS ALONE 2 MILLION DOLLARS GREATER THAN ALL THE MONEY THE COMPANY TOOK IN LAST YEAR. In the terms of the average telephone bill, the increase would amount to \$3.30, a month for everyone of our more than 1,731,000 telephone subscribers.

Our wage policy is to pay just and fair wages to employees — wages which compare favorably with local community levels. We believe we now are doing that. But we are offering to arbitrate to avoid a strike with its inevitable harm to everyone.
