Already inquiries about single rooms are beginning to come in to landlords, Cartier said. "This is unusual," he added, "and points to a healthy season for all of the action, it would be considered a beaches in this area."

He said that some of the places views to the CAB. were now opening for the season, while others yet were getting ready to open.

Cartier said that already twice as many applications had been re-ceived this year as compared with the same date last year.

If this section has good weather, he added, "we may expect one of the best seasons in several years. Indications now are that tee beaches will do a good business.'
