Hungarian Exiles Plan Government

Decision To Start New Outside Regime Considered

AWAITS JEKELY Resigned Cabinet Chief Enroute To Meet Nagy Here

SHANNON, Eire, June 21 - (AP) - The possibility of establishing a Hungarian government in exile was suggested here tonight by Laszlo Jekely, resigned chief of the Hungarian presidential cabinet who is enroute to the United States.

Jekely talked to reporters during a brief stop of his New York bound plane. In the United States he will join Ferenc Nagy, who was ousted as premier of Hungary in a Communist coup.

"In Geneva," Jekely said, "I sent a telegram to President Tildy resigning my positions as chief of the cabinet and as Hungarian ambassador to Belgium and Holland. My immediate purpose is to join Mr. Nagy and a decision will be made as to whether a Hungarian government in exile is to be organized."

"I do not, at the present time, consider going back to Hungary and I have no idea what the Communists would have done to me. I could never work with the Communists, having studied the ways of the western Democracies in the United States. I plan at some stage to return to Hungary to give the benefit of this western learning to the Hungarian people."

Tells Family 'God Took Him,' Police Report

ALAMEDA, Calif., June 21 - (AP) - Police said today Mrs. Grace M. Jones, 23, of Alameda, admitted smothering her four-week-old baby and putting his body into flames of an incinerator because "Jesus told me to do it."

The young wife of a sailor and mother of another child, 3, was held for investigation after policemen Pat McDermott and John Bramante took her statement. Police found the charred torso in the naval housing project incinerator last night. Today they began shifting ashes for missing parts of the body.

They were called by relatives of Mrs. Jones to investigate a missing child report. McDermott and Bramante said Mrs. Jones' father, Fred Oberhard, Oakland, and her sister, Mrs. Dorothy Eckles, San Francisco, arrived for a visit last night and were told by the mother of the baby, "God took him."

Under questioning, the police said, Mrs. Jones said she was awakened by the baby's crying, that she smothered him with rags and blankets and took him in a basket to the incinerator across the street.

Her husband, Fort, 23, was under two weeks detention at Alameda naval air station at the time of the baby's death, police said.

LOYAL GIRL WEDS HER VET

Waited A Year For Ceremony; 'Groom Paralyzed'

DETROIT, June 21 - (AP) - Richard C. Augsberger, 23, of Middletown, O., who was paralyzed in a motorcycle accident four days before he was to be married, took as his bride today the girl who had waited for him since the tragic crash a year ago.

Augsberger and Ardene Mae Fouts, 23, of Middletown spoke their vows in the chapel of the Veterans Administration hospital here before the Rev. Fr. Albert S. Zinger.

The groom was seated in a wheelchair. His legs are paralyzed, and doctors fear he may never walk again because of a broken back suffered in the accident.

Augsberger's best man was his brother Robert, 21, who suffered two broken hips in the crash when an automobile struck their motorcycle head on outside Middletown. He now walks with the help of braces.

Richard, who served three years with the combat engineers in Europe and the South Pacific, lay strapped to a board for 11 months. He was allowed to sit up in a wheelchair only a month ago.

He came to the hospital here in October, 1946. Ardene followed him and got a job in a nearby restaurant as waitress so she could visit him daily during his long ordeal.

The couple are honeymooning in Middletown, but must return here in a week's time so Richard can receive further medical treatment.

REPORT BIBLE BLACK MARKET

Shortages In Japan And India Jump Price Seven Times

AMSTERDAM, June 21 - (AP) - Copies of the Bible are being sold in the black markets of India and Japan, delegates from those countries told representatives of national Bible societies of 17 countries at Birkhoven, the Netherlands, today.

Dr. Eric North, secretary of the American Bible society, said the official price for a bible in Japan was three yen, but that the black market was getting 20 yen a copy.

The delegates were told that the world's most "Bibleless" nation was Germany, where even many pastors cannot acquire a copy. Europe needs 7,000,000 Bibles, of which 5,000,000 are needed for Germany alone, one speaker said.

BOOTHBAY HARBOR, Me., June 21 - (AP) - From a sun-baked wharf, the schooner Bowdoin set sail today on Commander Donald B. MacMillan's 25th Arctic voyage - to clock the speed of glaciers, record voices of Eskimos and delve into secrets of northland minerals and anthropology.

The trip is sponsored by the Chicago Geographic society. Cheers of almost 1,000 residents and summer visitors rang from Fishermen's wharf as the gleaming white vessel dipped across the harbor.

One of the many small summer craft followed the Bowdoin's wake to the harbor entrance was manned by actor Sterling Hayden and his wife.

Two of the listed company, which includes representatives from 11 colleges, each interested in a particular phase of the Arctic, were absent when the ship sailed.

One was First Mate Cecil E. Allchurch of Providence, R. I., who suffered a broken collarbone in an accident while enroute to this port. The other was Rutherford B. Platt, Yale botanist, who will come aboard when the ship puts in at Sydney, N. S., first port of call.

During the cruise, a special study will be made of polar Eskimos on the northwest corner of Greenland. A small tribe of 300 members, MacMillan related, had lived there for at least 1,000 years.

MacMillan expects to return here by Sept. 15 to beat ice formations in Baffin bay.

STORM WARNING ISSUED TO SHIPS

Small Craft Only Affected; Some Worry Needlessly

Fresh, strong north to northeasterly winds along the coast of southeastern North Carolina last night caused the Coast Guard station at Oak Island to issue a storm warning to small craft, it was officially reported.

The velocity of the wind at 11 p. m. was between 21 and 23 miles an hour. The station predicted the winds will shift to north and easterly this afternoon with occasional rains.

Several telephone calls were received at the Star-News editorial office asking for information concerning possible storms along the coast.

One worried mother said the conditions at Wrightsville were the same as they were three years ago when a terrific storm struck this vicinity.

"If such is the case tonight, I want to get my two children out of here," she said.

When told that no warning had been received, the lady seemed to be satisfied.

Thousands Of Acres Destroyed; Kenai In Danger Zone

ANCHORAGE, June 21 - (AP) - Intermittent light rains at Kenai Peninsula points may have checked the roaring forest fire which has swept toward the fishing village of Kenai and destroyed thousands of acres of timberland, the Alaska fire control service said today.

No direct word had been received, however, from the fire area since yesterday when the blaze was reported within 25 miles of Kenai and traveling fast. No heavy rainfall was expected, the weather bureau said here.

Three fire control service men were sent to Kenai last night and two more left today with pumping equipment and 2,000 feet of fire hose. The National Forest service at Seward also messaged it would send men and equipment.

The small Fort Richardson fire near here was well under control after searing 300 acres.

WASHINGTON, June 21 - (AP) - Capitol police estimated that 25,000 persons filed through the building today for a brief look at the Senate in the throes of a filibuster.

Many of them stood in line for as long as three hours to get into the galleries for the allowed five minutes.

Caplain William J. Broderick of the capitol police force said that the time limitation was necessary because of a huge crowd that began streaming into the building early in the morning.

"It was one of the most-if not the most-hectic days we ever experienced," Broderick said.

issued a scorching answer to a presidential veto and broadcast, Hartley called Mr. Truman's arguments "false" and said some language the president attacked is not in the bill at all in its final form. He accused the president of sponsoring "misrepresentations, half truths and distortions."

Mr. Truman himself gave no sign that he plans any further fight to prevent passage of the bill following his busv Friday when he sent his veto message to a headless House, called in a dozen senators for a luncheon conference, and took his arguments to the nation by radio. He was at the baseball game today, watching Washington defeat St. Louis, 5 to 4, when the break in the senate came.

The Monday vote will find two senators who could have been counted on to support the veto, Senator Wagner (D-N.Y.), father of the 1935 Labor Relations Act which the bill would change, is ill in New York, Senator Elbert Thomas (D-Utah) is in Geneva as a delegate to the International Trade Organization and said today he will not be here.

Taft held that their presence would not change the result. But taking no chances, the Republicans decided that no "pairs" will be allowed for the vote.

Under the pairing procedure, a senator who is present sometimes refrains from voting in a "pair" with an absent senator who would vote the opposite way. In view of the two-thirds majority required to override the veto, Democrats wanted two Republicans to
