16 European Nation Needs Announced

U. S. Asked For \$19,330,000 In Four Years

CITES DESTRUCTION

Western Hemisphere Asked For \$35,000,000

PARIS, Sept. 27.—(AP)—Sixteen European nations tonight released the text of a 20,000-word Marshall-Plan report declaring that the continent's economy had been blighted by World War II and asking \$19,330,000,000 United States aid in the next four years.

The text filled in some details missing from a summary made public last Monday, when delegates from the western and southern European countries signed the report here at the close of a conference of more than two months.

The report was issued also tonight in Washington, where it has been sent to be put before President Truman and Secretary of State George C. Marshall.

Mr. Truman told reporters Thursday he did not plan to call a special session of Congress, which will meet next in regular session in January.

Because of this, details of Europe's program caused little excitement in official circles of European capitals.

The report listed needs of the 16 nations and western Germany for food, fuel and productive goods from 1948 through 1951 but did not specify the requirements of individual countries.

"France's dollar resources will be exhausted within a month," said a French foreign office spokesman.

SMILING CHARLEY (CHOO-CHOO) JUSTICE, sensational scabback of the University of North Carolina receiving instructions from Coach Carl Snavely before yesterday's Tar Heel-Georgia struggle at Chapel Hill. The Tar Heels won the contest, top game in the south yesterday, before approximately 40,000 fans, and gained revenge for the 1946 Sugar Bowl defeat.

The Georgia Bulldogs stopped high-stepping Charlie Justice of the revenge seeking North Carolina Tar Heels at Chapel Hill yesterday before 42,000 fans, but the UNC eleven got in its licks with Walt Pupa tossing a pair of touchdowns passes late in the game to overcome a Georgia lead and emerge triumphant 14-7.

There was more revenge at Durham, where Wallace Wades Duke Blue Devils turned the tables on North Carolina State, as a recovered fumble paved the way for a fourth period touchdown and a 7-0 Duke win.

Wake Forest completed the Big Four activity last night with a 6-0 victory over a Georgetown eleven at Wake Forest.

Georgia Tech's 27-0 victory over Tennessee was the major upset of the day, with Tulane's surprising 21-20 thrilling victory over Alabama and Harry Gilmer a close second.

North Carolina Project To Resume October 1

SANFORD, Sept. 27.—(UP)—W. S. Webster, president of the newly-formed Raleigh Mining corporation, today said development would get under way at the Deep River coal field Oct. 1 in the company's "all-out" effort to revive the ill-fated old mining center.

The Raleigh Mining corporation is owned by Walter A. Bledsoe and Co., of Terre Haute, Ind., listed as the fourth largest coal producing firm in the nation.

Webster said his firm had a far-reaching program mapped out to revive the Deep River coal production and that the old Carolina Slope in the field would be rehabilitated and placed in production. He said the corporation also planned a completely modern mechanized mine equipped with the latest in machinery.

Spokesmen said the Deep River rehabilitation program would require about eight months. Webster said three years of detailed study of the field was made at a cost of several hundred thousand dollars in exploratory work before the corporation went into the program.

The Deep River field spreads over sections of Lee, Chatham and Moore counties.

FORD TAX CLAIM SETTLED, REPORT

Total Estate And Gift Tax Of Late Edsel \$28,200,000

WASHINGTON, Sept. 27.—The remaining tax claim of \$50,446,284.58 against the estate of Edsel B. Ford, son of Henry Ford and former head of the Ford Motor company, has been settled for \$8,310,724.27, it was learned today.

Mathematically, this figures out at settling for 17 cents on the dollar. Actually, the government reduced the amount it claimed was still due. It conceded that originally it over-valued Ford Motor company stocks owned by Edsel Ford.

Mrs. Eleanor Clay Ford, Edsel's widow and executrix of his will, obtained the settlement from the internal revenue bureau last month and the agreement now has been recorded in the United States Tax court.

The \$8,310,724.27 payment is in addition to a \$15,824,369.07 payment by Mrs. Ford in August, 1944, and brings estate tax collections in the case to \$24,635,093.34, the court records show.

Another \$3,600,000 was paid by the estate in taxes on gifts made by Edsel Ford before his death on May 26, 1943, and brings his total estate and gift tax payments to more than \$28,200,000.

WORKERS SAID UNDERNOURISHED

Sen. Flanders Of House- Senate Group Alarmed

WASHINGTON, Sept. 27.—(AP)—Senator Flanders (R-Vt.) said today food prices have climbed so high in New York city and some other large metropolitan areas that some white collar workers and low-salaried job holders are "seriously undernourished."

Flanders has been directing two weeks of public hearings by a Senate - House subcommittee investigating high costs of food and clothing.

"It is my personal opinion that there is a submerged population in New York city and some other large cities," Flanders told a reporter in summarizing results of four days of hearings in the New York area.

He defined "submerged population" as those persons whose "incomes have not kept pace with the rise in the cost of living."

Flanders said that data from welfare agencies, hospitals and other sources in the larger cities disclosed that soaring food prices caused "serious undernourishment for a large part of the population."

The wage advance that have been made go largely to those who already were getting relatively high wages," the Senator said, adding that these higher wage level workers usually are found in fields where unions are strongly organized.

RALEIGH, Sept. 27.—(AP)—Mrs. Mary Ellen Currin Miller, 24, petite and comely mother of two children, arrived at Central prison here today to begin serving a four to eight-year term for inducing a Negro man to shoot her husband.

She was accompanied to the prison doors by her husband, 27-year-old David Miller who is still suffering from the effects of a bullet fired into his chest by the Negro as he lay sleeping last May 11.

Miller told Superior court Judge W. H. S. Burgwyn at his wife's trial at Lumberton Thursday that he was willing to forgive her and "forget the whole thing and take Mary Ellen back to the children."

The couple was accompanied on the journey to prison by Mrs. Miller's father, Allen Currin, prosperous farmer of Rowland, and by a Robeson county deputy sheriff.

The father and husband turned while the formalities of turning Mrs. Miller over to the officials were handled. A prison official described the entire group as "calm."

Mrs. Miller was immediately transferred to woman's prison here where she will serve her sentence.

Fred Wiggins, 21-year-old Negro, who testified at Thursday's trial that he shot Miller at Mrs. Miller's request, was scheduled to be brought to Central prison today, too, but prison officials said that he had not arrived late today.
