

CITY HALL MOVE IS CONSIDERED

Possible Advantages Considered By Whiteville City Council

WHITEVILLE, Dec. 11—A proposal to move city hall from its present location to new headquarters in East Maine street was under consideration this week following a meeting of City Council Tuesday night.

No action was taken but the matter was discussed, pro and con, by councilmen and was considered as a temporary solution to the problem of a city hall.

Moving city hall to the water station building would involve remodeling the structure and the paving of Main street to that point.

Possible advantages were the saving of rental on the present building, availability of parking

spaces for those who do business at city hall, getting city employees close to the supply station and possible saving through installation of block cells which would eliminate cost of keeping prisoners in the county jail.

City authorities were interested in first obtaining information as to the possible affect such a move would have on insurance rates through a change in the location of the fire department and were particularly concerned about an expression of opinion from citizens of Whiteville.

Among other actions taken at Tuesday night's session were a directive for the enforcement of the hog ordinance and a revision of the ordinance speeds to allow 15 miles per hour through the city.

An increase from five to 15 miles per hour follows the pattern set by Mullins, S. C., which made the change after a fire truck was held up by a long freight train while the cars crawled through the city.

White cloth made of rayon does not yellow with age.

CHESTNUT SURVEY IS BEING MADE BY CITY COUNCILMEN

City Manager J. R. Benson yesterday was instructed by the City Council to make a survey investigating the possibilities of using Chestnut street from Third street east as a through express highway.

The suggestion of using Chestnut street as a through highway was made by Councilman R. L. Burnett.

Members of the council approved the plan for a new subdivision in the Forest Hills section to be known as Beaumont, and accepted the thanks of Secretary Louis Moore of the New Hanover Historical society for the hanging of the portrait of Whistler's Mother in the city hall.

Other actions included: changing of a city ordinance to permit permanent overhangs on buildings over sidewalks to be 24 instead of 18 inches at the request of G. J. McLelland, who said he wishes to put one on a building at 107 Market street; and granting of beer licenses to W. C. Harwick, 319 Wright street, and James Richburg, 605 Red Cross street.
