N. C. METAL CONTROLS HOW GREAT PROGRESS

With the metal control program in effect, the State has made great progress in the production of metal goods. The program has resulted in a steady increase in the output of metal products, and has helped to stabilize the market for these goods. The State has also been able to reduce the cost of metal goods, which has helped to increase their demand. This progress is a result of the careful planning and execution of the metal control program.

Better ENGLISH

Ideas control the world. Those ideas that are put into words, that language, then, becomes more than just words and sentences. As Holmes says, "Language is a medium through which we can express our thoughts and feelings. It is a tool that we use to communicate with others. It is a way of sharing our ideas and experiences. It is a way of making our lives more meaningful and more interesting. It is a way of making the world a better place."/>
