NAACP SECURES RELEASE OF MEN HELD ON CHARGE OF RIOT IN TENNESSEE

...heard that a white man walked into a store and bought some rope. When the clerk asked what he wanted for it, he said, 'We are going to hang some Negroes to night. We didn't like that. We didn't want to get killed. We heard that two Negroes had been hanged to long ago.'

TWO POLICEMEN SHOT

The rioting, if it can be called that, seems to have been entirely confined to police, state troopers, state guardsmen and Negroes. White civilians took little or no part, although many of them roamed the streets armed.

Four city policemen went into the Negro district when they were called on a Saturday. They were shot. This brought on the state troopers and the state guard, a total of 500 armed men in all.

The state troopers really 'went to town' in the Negro district. They took the action. The Nashville Banner said:

'As the highway patrolmen moved into the Mink Slide or Black Bottom section this morning they found a mob of Negroes. Business establishments were being looted and looting. Among the places which were wrecked by machine gun fire from the policemen were ARMED WHITES NOT BOTHERED'

While the troopers and guardsmen were busy searching Negro homes and individuals for arms, scores of armed white civilians looted the streets and were not challenged, searched or detained.

S. ACTION URGED

After having wired the Department of Justice urging action from Washington to the state and local officials, the NAACP demanded that Washington had delegated action to U. S. Attorney General E. A. Tamm, who office in Columbia, S. C., but who is a native of Columbia. Pointing out that many Negroes were still being held in jail in violation of their constitutional rights and that a Negro newspaperman had also been arrested and jailed, Thurgood Marshall, chief counsel of the NAACP in New York again telegraphed Attorney General Clark of Department of Justice, urging that in this most serious challenge it is imperative you send representative from Washington to take over immediately.

Within a few hours after reports of the riot came over, the radio, Walter White, NAACP secretary, wired Governor McCord urging him to restrain peace officers who are following predicted pattern of using authority and weapons solely against Negroes.

Gov. McCord answered that all law enforcement officers 'have been definitely instructed that there is to be no discrimination because of race or color.'

Continuing the exchange White pointed out that only two whites had been arrested, that Negro homes had been invaded without warrants, and called upon McCord to take 'all possible steps' to correct injustices.

The NAACP was able to act speedily in the Columbia matter

Law enforcement officers 'have been definitely instructed that there is to be no discrimination because of race or color.'

Continuing the exchange White pointed out that only two whites had been arrested, that Negro homes had been invaded without warrants, and called upon McCord to take 'all possible steps' to correct injustices.

The NAACP was able to act speedily in the Columbia matter because Donald Jones, one of its field secretaries, was in Columbia. By long distance telephone, the New York office arranged through Jones for Attorney Weaver to go to Columbia. It likewise arranged for Attorney Luby in Nashville to be called a 'non party measure.'

DEFEAT RACE ISSUE IN SEAMEN'S WAGE CONTROVERSY

The colored seamen have a lower working capacity and are accustomed to a different standard of living and that equal payment with white seamen would therefore be unreasonable.

'Such puerile piffle is indefensible and was given the reception it deserved. But it shows that the spirit which actuated the Nazis if plunge the world into war is far from dead and with the echoes of the guns still sounding in our ears, attempts are made to resurrect the ghost which so many gave their lives to lay.'

'One should not be surprised if the part that all played who answered the call be completely forgotten and there be reversion to a policy which must make the blood of honest men boil. Here and there are a few who practice what they preach, but the stiff necks are a positive danger to the realization of the ideal of harmonious relations for which the youth of civilized countries gave its life; it seems in vain.'

2 KILLED, 4 BADLY HURT IN TRAFFIC MIDNIGHT WRECK

This accident was the second, and reportedly the third time, in almost similar accidents demolishing homes in that block which are near a curve on the highway, and near a part of a section known in recent years as Little Harlem, but very close to the popular and historic Huguenot section of Fayetteville.

The car which was reported as a total wreck, is reported to be owned by Mr. David L. Jones, father of the deceased.

Nearly every ambulance in the city answered the distress call as news of the accident was flashed over the town. A number of persons gathered early in the morning enroute to work to view the scenes of the accident, and later hundreds assembled to check on the occurrence.

Henry Ferguson, an employee of the Camp Funeral Home on Colbreath Street, stated that he was an eye witness of the accident. He said he saw the car traveling at very high rate of speed fail to take any turn off the main road, traffic highway, leave the main road, and crash into the house. 'Another man and I tried to help,' said Ferguson. 'Three of the people were able to get out by themselves. Four could not. I am positive there were seven persons in the car. To the best of my

There is one hospital bed for every 110 white persons in the United States, but only 'one bed for every 10 Negroes.' There are no hospital beds available for Negro patients in some of our communities, Bedacht said.

The Wagner-Murray-Dingell National Health bill will have greater chances of passing by 'publicizing the actual content of the bill and the national health emergency which it is designed to meet' by organizing 'broad committees representing a variety of civic, labor, church and fraternal groups, "public conferences in which the purpose of the bill can be analyzed, and ways and means of pushing it be worked out on a community and professional basis" by obtaining commitments from congressmen, state legislators, city councils, etc., publicly supporting the bill, writing to individual representatives, and sending local physicians and dentists, newspapers and radio stations, expressing personal support of 1946.'

An eye should be kept on social welfare bills currently before congress, such as 'the full employment bill, the unemployment compensation and minimum wage bills, S1050'

SOUTH CAROLINA LYNCHING REPORTED IN ATLANTA

Five of the NAACP was notified and asked to make an immediate investigation.

The witness said he was positive that he saw a Negro man hanging before the throne in Elko.

GEORGIA GRAND JURY FINDS NEGRO SCHOOLS INADEQUATE

A grand jury acted on a report of a special committee composed of Dr. Sam Guy, chairman, A. E. Foster, J. W. Battle, J. E. Ingram and Paul Newsome. This report made it clear that the Negro school buildings were inadequate, poorly constructed and in most instances, the structures used as schools were 'borrowed' Negro churches.

The DeKalb Grand Jury committee invited Negro teachers in the system for their ability, moral and fidelity to the system.

Veterans Aid W. R. TWEEDY Veterans Counselor USES

The average returning serviceman does not want any exceptions made, or any special favors granted him when he descends his uniform and returns to his former civilian status. He has a conscientious desire to be treated as any other person who gave up a home, a job, and civilian happiness and contentment to render service to his country, and now returns to a peaceful home, to continue his job, or to seek a better one, and to take up happiness where life was interrupted when he entered the service.

The physically handicapped veteran who lost a limb or his health during the war does not want paths shown him on every turn. He does not want to be constantly reminded of those dark days on the battle front where he lost that limb. But he does want to be given a chance on some job that he now may earn a livelihood with one arm.

HEALTH BILL WILL IMPROVE NEGRO HEALTH, BOOKLET SAYS

Bedacht said that only 2,000 Negro physicians serve 10 million Negroes in the south, or 'one doctor to every 5,000 persons. It has been authoritatively estimated that a safe ratio is one doctor for every 1,500 persons. Approximately 1,700 Negro dentists serve the 13 million Negroes in the United States.'

not having had any experience in the service, do not know just how to go about welcoming the heroes home as much as they desire to make him feel at home. It shall be the duty of this column to put the Veterans before the public in the true light of his achievements and future desires as well as to keep the veteran himself informed as to rights and benefits of which he is entitled to take advantage.

Abraham Lincoln Hotel Serves First Negro Guests

SPRINGFIELD (ANP) - The Abraham Lincoln hotel served its first Negro guests last week during the Illinois Federation of Sportsmen's club convention here. The Negro delegates who ate in the hotel's ballroom Saturday and Sunday, were Dr. Conley Ogletree, J. P. Cook and John A. Hillon.

More than one instance, the hotel is reported to have refused to accommodate Negro guests. This is said to be the first time in the history of the Abraham Lincoln hotel that it extended hospitality to Negroes.

WILL RELEASE SOLDIER

NEW YORK - Clarence W. Harding in whose behalf NAACP lawyers filed a petition for release will be released early in March. The Association was advised by the War Department last week.
