

(Cont'd from page 1)

GOV. CHERRY PETITIONED who ruled on how many African-American students may move, and what requirements they must maintain for approval.

It is contended, and with some degree of substance evidence as of last week, that there are student, who for taking the case up, is actually setting as instructors in the school in Winston-Salem, clear violation of state laws, and that, which one other Negro college operator have been placed on the carpet.

By instituting the quotas for Negro owners and operated schools, and even using extreme pressure for some of them out of business, it is alleged that Mr. Cherry has, and is even, with him in the deal can divert into their own pockets many thousands of dollars from Federal revenue, for Negro students taking course. One student here some time ago, told a reporter that he had been approached by Chairman J. M. Cheek, of the State Board, who told him that new sets of rules were going to open up in Winston and that he would like for him to come there. But the student when it opened. This is claimed to indicate that Mr. Cheek may have been behind and masterminded the new school which was opened by the Negro Barber Association in Winston-Salem.

NIGRO QUOTAS LIMITED It is pointed out that the school in Durham operated by Mr. DeShawn, with 100 Negroes allowed to study, the school in Winston, operated by a Mr. Harris, with 200 students allowed to study, the school operated by Woodie Morgan, with 100 students all well 22 students.

Wilson, with 14 chairs, had agreed to be under the hand of the State Board because he had 14 chairs and 100 sets of 12 students, all of whom Wilson had, a total of 14 chairs, 100 sets of 12 students, all of whom Wilson's signature on the bill, was personal check.

What about Governor Cherry will take no action but it is certain that the SBI cannot handle it for they say it is a matter for the Governor.

CHARLOTTE LEADS From A. M. "Bud" Houston and James Ross have been designated as "supervisors" of the other Negro cops, in addition to their duties of being the mobile patrol team of the colored group. They were appointed in July 1941.

Thus the efforts of the Veterans Welfare Association working in harmonious co-operation with the City Council and the Civil Service Commission have given the city its most experience in inter-racial co-operation and the move has been hailed by all the Negro citizens of Charlotte as one of the most forward steps in the city. Chief Frank N. Littlejohn is due full credit for having been responsible for the appointment of the new cops, or it was his choice solely, with the consent of the Council. He has the move affected.

KILLER SENTENCED TO LIFE IMPRISONMENT Killed him instantly. He said neither he nor Houston had had any trouble with Moody and had not seen him before.

Bryant said he ran when Moody appeared to be breaking the zinc and got behind the house, and quoted as saying, "I want to get him to Wainwright and have them take him to the state to get help."

LYNCH SPIRIT FLARES IN NEW YORK CITY shop in the Village about a block from her home, has been subjected to insults and threats for the past three years from a neighborhood Some she is afraid to go home at night. Her home was broken into once and possible suspect taken, and though she has repeatedly complained to the police, no man has been taken into custody to disprove the group from instigating her.

The latest reported attack was made on a group of employees of Cafe Society, a popular Village night club. Sarah Vaughan, entertainer, George Trappell, musician, and Naomi Wright, matin, were surrounded by a mob of hoodlums on April 1 and after leaving a bar, driven. The group managed to get into the subway before they were seriously hurt, but Miss Vaughan was buried. They immediately filed a complaint with the police. Miss Vaughan says she has possibly identify one of her assailants possibly more. It is hoped

ARMY TO DROP announced.

General Dwight D. Eisenhower, chief of staff, under direction of Secretary of War Robert P. Patterson issued a circular dated August 10th directing commanders of all echelons and all officers serving on board of officers considering inaptitude of soldiers apply more generally Army Regulations providing for discharge of soldiers for inaptitude.

The circular makes no reference to race or color, but it is known that the Army considers as a problem colored soldiers who fail in grades four and five under the Army General Classification Test. Sixty-six percent of the colored personnel in the Regular Army is said to be substandard.

REVEAL TWO MORE LYNCHINGS IN ANTI-NEGRO TERRIOR

should against Hetherington, and the other was Jim C. Jones, 26-year-old resident of Minooka, Ill., who was freed after a white woman refused to press charges. He had been found guilty.

Two more lynchings on the last day of June, Aug. 19, in the quiet rural lynching in Walton County, Ga., and two additional murders

nearby, the blinding of Isaac Woodsard, at or near Aiken, S. C.; a lynching in Mississippi and the riots in Columbia, Tenn. Revivalists of the Ku Klux Klan and residents of Bibb and Talmadge are also involved.

Observers tie up the wave of anti-Negro violence with the southern organizing drive by both AFL and CIO unions. The Klan originally claimed at Negroes, Jews and Catholics now operate against organized labor particularly the CIO on the ground that it is "a bunch of communists." Klan lynching threat have been made against white union organizers.

Since any genuine union drive is aimed at Negro and white workers, labor leaders point out that interracial trouble happens organize efforts by creating additional friction between white and colored workers. The Klan is considered a front for anti-labor forces.

One fact include the supreme court white primary decision to allow 100,000 interstate travelers wartime gains made by Negroes and the majority of return veterans. All are used by Klan men to incite whites.

NURSE DIES SAVING PATIENTS FROM BLAZE When and another nurse braved the searing flames which were set out of control and brought out each of the 34 patients. Not taking time to count them, not giving aid to those received all 11 them. Nurse McElveen took a last plunge into the flaming fire to be sure nobody was left. The flaming structure collapsed and when firemen retrieved her body some hours later, it was charred beyond recognition. Both of the patients were saved.

A. W. Coker, business manager of the sanitarium, estimated the loss at \$36,000 to the building and \$3,000 to equipment in it. The patients will be housed temporarily in one of two white buildings nearby, neither of which was damaged by the blaze.

Funeral services for the nurse were held during the week and many hundreds of citizens of both race from both cities and the neighboring towns overflowed the church.

DAMAGE IS \$200 IN AUTO WRECK

Street and came out of the way street and hit the rear of a 1937 Dodge. Both drivers seemed to have been driving at moderate speed according to police, but they rolled quite a distance at the impact. Spayer's car running up to the tenth of a mile at 101 Haynes Street and breaking some pots on the roof.

No arrests have been made.

INCREASE JOB OPPORTUNITY SURVEY

chance—1946, 47%; 1944, 42%. White should have first chance 1946, 49%; 1944, 52% Undecided 1946, 47%; 1944, 63% When on the more recent survey, Negroes were asked the same question, 92% demanded an equal opportunity to compete in the labor market.

The shift of opinion evidenced among the white public as a whole holds constant among the various population groups and the "Undecided" response are likewise slightly but consistently smaller. In 1944, for instance, only 19% of Southerners believed in equality of economic opportunity for Negroes; today 27% of Southerners would give whites and Negroes the same chance at any kind of job. Among the college-educated, the proportion advocating job equality for Negroes has increased from 58 to 65% among persons with the least education, from 31 to 39%.

While sectional feeling on the issue makes for the sharpest division of opinion, persons in the more privileged groups educationally and occupationally are more willing than those less privileged to see Negroes and whites have equal job opportunities.

The most significant comparison on the 1946 survey follows: All white interviewed—47% New England and Middle Atlantic states 60% Midwest and West 50% South 27% Attended college 65% Attended high school 49% Eighth grade or less 39% Professional people 63% Businessmen 53% White-collar workers 52% Service workers Manual and Fractory workers 44% Farmers 40%

Among the many illuminating comments volunteered by the 47% who believe that "Negroes should have as good a chance as white people to get any kind of a job" are a number who base their argument on democratic principles. Most common is the comment: "The Constitution says Negroes should have equal rights." An Atlanta, Ga., housewife quoted the Declaration of Independence: "Each individual is endowed with inalienable rights and all men are created equal."

An old age pensioner in Waltham, Massachusetts, thinks: "In a democracy people of every race and creed should have an equal chance at jobs." A Virginia librarian exclaims: "Why all this talk about world democracy if we don't clean up our own back yard first?"

MIXED VETS GROUP STARTED IN CITY

Raleigh chapter of the American Veterans Committee, a mixed veterans organization was organized at the First Church, Monday night with Jack Pamphill, white, elected chairman. Nicholas Patterson, Veteran of

VETS URGED TO STUDY OCCUPATION BEFORE ENTRY

GREENSBORO—There are many things which a veteran should consider before pursuing an occupation or a profession," declared B. A. Manchi, acting chief of the Veterans Administration Guidance Center at A and T College, in an address at the college last week.

Stating that every veteran need

some type of guidance, Mr. Manchi stressed the need for ex-service men making maximum use of the expert counsel furnished by the government. Some of the questions which he said that a veteran should ask himself before training for a job were as follows:

"Are you able to follow through the training necessary for the job? Do you have the qualifications? Are you temperamentally fitted for the job? What is the probable future of the occupation? and what are your reasons for choosing the job sound?"

Meeting were: left to right, the Rev. Frank Glen White, New York Director of the People's Institute of Applied Religion; the Rev. Henry G. Jones, pastor Mt. Lethal Church, Glen Rock, N. J.; Dr. Clark Howell Foreman, president of the Southern Conference for Human Welfare carries on a broad educational, political and legislative program in the South, theme of which is "Every Southerner a Voter."
