PREDICTS NEGROES

civil rights to every citizen. "At the moment, President Truman seems to be strong among the Negroes," he continues. "The question is whether he can hold what he has gained, or whether the good will which he created for his party and his own candidacy will be overthrown by the actions of southern members of Congress."

"But there appears to be no enthusiasm at all for any of the current Republican candidates. And of course, as far as the Negroes are concerned, there is no comparison between President Truman and Franklin D. Roosevelt, despite the President's present popularity."

White declares that the current political power of the Negro in the north and west, due largely to the migration of Negroes from both major parties "worried." But he deplors any move to organize the Negroes into a single voting unit.

"Most of us devoutly hope that it will never be necessary to form a racial bloc of Negro voters," he says. "It would be far better, both for the Negroes and the country as a whole, for racial and other groups to function as American citizens. Whether the Negro does so or not is not a choice he will make. It will be made for him by the politicians."

The 17 states in which the Negro is said to hold the "potential balance of power" are: New York, Illinois, Pennsylvania, California, Ohio, Indiana, Michigan, New Jersey, Missouri, West Virginia, Maryland, Connecticut, Delaware, Kansas, Kentucky, Oklahoma and Massachusetts.

North and south that have no crossing over or under the Southern Railroad.

Because of this condition the entire section is isolated and is not being provided by service. The petition also pointed out that there are two blocks south of Burg Street extending from Fayetteville Street to the Garner Road in which there are no lights which makes it impossible for residents to be provided city mail service.

The City of Raleigh extended the city limits over the area several years before the war and promised to improve the section, but so far no lights have been installed, city mail service has not been extended and the entire area is still a sea of mud.

CIVIL RIGHTS

means shall we now use to make this report law? "It is our task to see that this country return to the democracy of Franklin D. Roosevelt. Since Roosevelt's death we have gone a long way from that democracy. We must fight the forces that profit by the fact that there are no civil liberties. Reactionary forces have made attempts to split the Negroes from the labor movement and attempts to split the Negroes themselves. We must fight these forces in the Roosevelt way to bring good government to the country again."

The following resolution was passed: "The Raleigh Branch of NAACP goes on record as welcoming and endorsing the report of the President's Committee on Civil Rights. As members of the Negro race in the South where Civil Liberties are repeatedly denied us on one minor pretext or another, we realize that mere words are not enough. Therefore we call on President Truman and the leaders of both parties in Congress to make the necessary actions to this to pass immediately that will...
