WOODSAW HALVES MAN AS IT BREAKS FROM BASE

DUNN — Death came quickly and in an unusual manner to Noel Rankins who was literally cut in two when the woodsaw he was operating broke loose from its base, entered his right chest and passed all the way through his body.

Police Sergeant G. A. Jackson, who investigated the accident, said his body was completely severed and added: "It happened so quickly that Rankins died before he knew what had happened."

Rankins was sawing wood at the home of Wilson Williams on North King Avenue and James Willis was passing him the wood. According to Jackson the saw was not firmly mounted on the back of the truck so that when it broke loose it passed through the body of the victim and landed a considerable distance away.

Police officers have advised Corporal C. B. Allred that no inquiry is necessary and ruled the case an accidental death.

WHY WORRY

There are only two things to worry about, either you are well, or you are sick. If you are well, then there is nothing to worry about. But if you are sick, there are two things to worry about. Either you will get well, or you will die. If you get well, there is nothing to worry about. If you die, there are only two things to worry about, either you will go to heaven or hell. If you go to Heaven, there is nothing to worry about, but if you go to hell, you will be so busy shaking hands with friends you won't have time to worry.
