TOWN'S SCHOOLS BAN ANTI-RACE HATE BLOTTERS

CHARLOTTEVILLE, Va. (AP) - A request of the Junior Chamber of Commerce to permit distribution of American "Fight Racial Hate" blotters in the public school was turned down by Albemarle County board in its monthly session September 9. The board passed on the matter with the expansion that it felt that "the people who receive the blotter" would attach political significance to their distribution. Because of the possibility of political implication in the distribution of the blotters the board concluded in its resolution of the request that "this board declines to grant request for distribution of said blotter in county schools." In a statement for the Junior Chamber of Commerce, James M. Barry III, its president, said "it is regrettable that those who are in charge of the education of our children in this care the Albemarle County school board, have refused to allow the educational processes of America to function properly. "Our blotter campaign was never and is not now a political campaign. It is an educational program and one which has been sponsored nationally by the United States Junior Chamber of Commerce to help stop bigotry and intolerance in America."

GA. REPUBLICANS HEAR TRIO BLAST DEMO. LEADERS

ATLANTA, Ga. - The battle cry of Republicanism, not heard in Georgia since the days of the late Ben Davis, rang forth from the West Street Baptist Church, Friday night, when John T. Risher, Washington, D. C., Durley S. Martin, Chatham, Ill., Thurman L. Dodson, Washington, D. C., told a audience of more than 1500 that the salvation of the Negro in America rested in the building of a strong Republican party in the south. The meeting was sponsored by the Fulton County Republican Committee as the beginning of a drive to put Georgia in the Dewey column in the forthcoming election. Risher told the audience that no longer could the Negroes of Georgia expect to be liberated by some magic force. Dudley Martin proceeded to lambast the late President Roosevelt for having backtracked the Negro for four elections. He told of ex-slavery. "ZAR" He told of the administration's desire to spend 10 billion dollars to blot out Communism abroad and not being willing to spend one dime to defend the Negro against the evil practices of the race haters. He closed by calling President Truman's recent civil rights posture, a death bed promise, and termed this stand as the real "red herring" of the campaign. Chairman L. Dodson, president, National Bar Association, told the audience that he was not asking them to vote for Dewey for what Lincoln had done, but he wanted them to vote for Dewey in order to get rid of some five Democrats. He termed the Democratic party as being controlled by Rankin, Russell, Ellender and the like. He also attacked Truman's civil rights posture and called upon the members of the President to show cause why Mr. Truman would not abolish discrimination in any civil contract, law, treaty and other federal activities, if he was so anxious in his projection of civil rights for Negroes. Mr. Truman knows that as long as he is the standard bearer of the Democratic party, he is the servant of the most diabolical system that America has ever had. He must dance to the music of his masters and all of us know what that music is. Keep the Negro in his Place," said Mr. Dodson.

YOUR SCRIBE

By FREDRICK L. BURNS

One of the best cases of democracy in action was shown here last week when the Rotary Club in a body visited the new Negro hospital now under construction, on Moore Street. I say democracy because when a white man makes an open plea for any Negro cause he is labeled by some cheap politician as a Negro lover, and is looked upon from a different viewpoint by his fellow men.

Knowing these things to be true, it takes a man of courage to make a plea to a body of young men as did Dr. Sam Howie last week, when he asked aid for the hospital. The hospital was started the early part of last year by D. M. L. Perry, one of the city's most progressive medical men, who saw the need years ago, but was not in a position to do anything about it.

He has had his set backs as have all great men who have tried to put their ideas before the public. But his day will come as all citizens of our city know the need of a Negro hospital in the city.

In presenting the cause of the maternity hospital to the Rotary Club, Dr. Howie ran true to form, as he is considered one of the city's most courageous ministers. He is pastor of the Highland Presbyterian Church situated on top of Haymount Hill next to where he old standpipe once stood.

When a man stands in his pulpit on Sunday and delivers the word of God and during the week tries to put that teaching in action, he becomes a leader, yes a true leader of all the people. A leader whose wisdom and advice is sought after because they know that when a leader like that says anything you can depend upon it. To become a leader one must possess varied qualities and enough gall to speak his convictions.

A few years ago we had a teacher that would always say: "First make sure you are right, then go the limit on your convictions."

So many of us have ideas, sometimes good ideas that would help the mass of people concerned, but being afraid of what the "public" would think, we permit these ideas to die before being brought out. Therefore they have no chance to go to work.

So to Dr. M. L. Perry who had the vision of a maternity hospital, Dr. Sam Howie who saw the work of Dr. Perry and knowing he needed help, presented his cause to the ever alert and energetic Rotary Club, and W. J. West, preacher and his fellow members who are ever on the alert to make improvements in the city regardless of where the need be, we bid God speed in whatever assistance can be rendered.

Democracy, like charity begins at home, we can make it work here with a few more gestures like that which was made last week.

Fayetteville is one of the oldest cities in the great state of North Carolina it has long been noted for its fair play toward all people regardless of race, color or creed.

What would be more fitting than our city to take the lead in bring about first class citizenship to all its people.

We have the citizens with the ability, we have everything here at home. Why not put it to work?

Thanks. See you next week.

Jamaicans Stymied By \$100.00 Fee In Move To Liberia

KINSTON, Jamaica (AP) - A new financial barrier was added by the government of Jamaica in the plan for native emigration to Liberia last week. Just as 16 persons scheduled to leave last week were ready the government imposed a new deposit of nearly \$100 for each emigrant. The first group to leave for Liberia during the past spring did not have to make such a deposit.
