The Tri-State Golf Tournament went over with a bang, and what an echo. Everyone who met in every walk of life is singing praises of this very successful and colorful Golf Tournament.

Ralph Alexander, of course was the big gun in this history making event. Alexander is invincible so says his opponents.

He beat us at Va. Beach, and we have some good golfers there, and Mr. Jackson, a very good golfer and a swell sport, who finished in sixth place in the tournament.

The Goebels who are in charge of the Meadow Brook Golf Club, scene of the tournament, are swell people. From this corner I can truthfully say that they are the most congenial and hospitable people that I have met. Their fine cooperation, and very favorable attitudes have been very keenly felt and shall go a long way in encouraging many people who previously hadn't dreamed of playing golf, to become very interested in this fine sport.

James H. (Jimmie) McKee, spokesman for the Excelsior Club is very grateful to the many firms, station WGTN, the press; the Goebels the many spectators and everyone who helped to make this, the first Tri-State Golf Tournament, a huge success.

The Second Ward Tigers certainly took the starch out of the large of Hickory roosters and also the Ridgeview Eleven Friday, as they made a very fine comeback in the last five minutes of play. At half time the very hard fighting squad from Hickory was leading by a score of 13 to 0. This lead was equalled in those last five precious minutes when the Tigers put on a sustaining drive to also score 13 points and in the meantime thrill the large Charlotte grandstand.

The game was played in the new stadium, located near Harding High School. The stadium when completed will be used by the two Negro High Schools and the Junior High School (white) as they will not be allowed to play in the Memorial Stadium this year.

Lights are to be installed very shortly at this stadium which will also be used as a baseball park, and for out of door concerts etc.

## Appeal Filed To End Ban In N.Y. Public Housing

NEW YORK — Renewing the which racial segregation is not only openly avowed, but publicly subsidized and approved. It is undemocratic, dangerous and, above all, illegal.

The plaintiffs are represented by NAACP Special Counsel Thurgood Marshall and Mrs. Marion Wynn Perry, assistant special counsel. Will Maslow of the American Jewish Congress, and Charles Abrams of the American Civil Liberties Union.

The Metropolitan Company admits that it has refused to accept Negroes in Stuyvesant Town. The plaintiffs argue that this discrimination is unconstitutional because the project was built with the aid and cooperation of New York State and the City of New York.

**FORBIDS DISCRIMINATION**

The Constitution forbids racial discrimination by the State Government and its branches, the plaintiffs urged in their brief that this restraint applies also "when the State acts through a private corporation in performing its public functions."

Money from both Negro and white taxpayers is benefitting the life insurance company, since tax exemptions were granted for twenty-five percent of the increased value of the fund. The total saved by this exemption will come to more than fifty million dollars over the full period.

The brief concludes: "If the defendants' contention is sustained, there will be, within a stone's throw of the United Nations building, a gigantic undertaking in

## H. U. Prof to Head Protest Group In NAACP Ouster

By CONRAD CLARK

NEW YORK (ANP) — An Emergency Committee, To Protest the NAACP Action Against Dr. W. E. DuBois was announced here Friday with Dr. Joseph Johnson, dean of the Howard University School of medicine, as chairman.

The committee, with headquarters at 49 West 44th St., organized with the view that the NAACP's action against Dr. DuBois was unwarranted and merits further consideration since Arthur Spingarn, NAACP president, himself declared DuBois is "one of the greatest leaders of his race."

The committee, whose membership includes Shirley Graham, author of the Frederick Douglass biography, "There Was Once A Slave," and Atto. Archibald S. Hendrix of Washington, has sent telegrams to many NAACP members throughout the country inviting them to join the committee in protesting the ouster of DuBois.

The committee will recommend the ouster order be rescinded, and already other sub-committees are being organized in other cities and states.

The action taken by the N. A. A. C. P.'s board of directors September 13, which followed Dr. DuBois' criticism of Walter White for taking the post of consultant to the U. S. delegation to the United Nations, was that of relieving him from his duties with the organization when his contract expires on Dec. 31.

In the ouster charge, the NAACP said that Dr. DuBois had given a memo to the press on the dispute before the board had had time to study the DuBois charges.

This accusation was denied by DuBois, and substantiated by many members of the press, who said that the memo was not given to them by him.

## CCTS HOLD OPEN HOUSE TO MARK SCHOOL OPENING

BY W. W. STODOLSKY

At its first Parent-Teacher meeting for the 1948-49 school year Mr. N. L. Dilard, principal, and members of the faculty opened the doors and a wonderful time was had by all.

With former veterans PTA president and secretary, The Rev. T. L. Cobb presiding, the minutes of the last meeting were read and adopted after devotionals. Mr. Dilard extended a warm welcome to all patrons present and expressed regret that the season prevented a larger number from attending.

He then suggested a unique method of introductions, every person present introduced himself. This really broke the reserve of any timid ones present.

"We have," he remarked, "been operating for 12 round months this year, the school actually hasn't closed its doors. The schools of carpentry and brickmasonry have been going perpetually. In fact we are looking forward to the day when no person in this locality shall want to learn any of the major trades and not be able to do so right on the spot."

The site has been purchased for our new building and the plans are in the hands of the architects now. Soon, it will not be just a dream.

Officers for the year were elected as follows: president, Rev. T. L. Cobb, vice-president, Mrs. B. Brantley, secretary, Miss K. Robinson, elected unanimously.

In his acceptance remarks, Rev. Mr. Cobb gave a brief resume of the history of the school. The entire group was then dismissed to visit all the departments of the elementary and high schools led by N. L. Dilard, principal.

Upon reaching the music room a score was given by the music instructor, Mr. Morgan. The tour ended in the school cafeteria where refreshments were served to all.

The school patrons present were: Mesdames Mary M. Hill, Annie Lee, Louise Hill, Mollie Lowmyer, Jennie Bigelow, Emma Williamson, Brady Brandon, Mary Hill, Louise Brown, Shirley Williamson; Messrs. Tom Hill, J. A. Gwynn, J. C. Gwynn, B. F. Lea, J. H. Lipscomb, N. L. Bigelow, and Mr. and Mrs. Albert Johnson, Mr. and Mrs. J. W. Bigelow.

## \$5,000.00 Suit Filed By Woman Against Bus Co. In Richmond

RICHMOND (ANP) — A suit was docketed in law and equity court last week by Miss Pearl Powell charging that the Carolina Coach Company of Virginia refused her bus transportation after she had purchased a ticket. She is asking \$5,000.01 damages from the bus firm.

The complaint contends that Miss Powell bought a ticket to Richmond from Emporia last June and occupied a seat next to the fully occupied long seat in the rear of the bus. She says that the seat next to her was vacant.

When two white women boarded the bus, the driver ordered Miss Powell to stand up so that they could be seated. She refused, and the driver punched her ticket and told her to take a second section.

However, as she presented her ticket at the second section, the driver told the other vehicle operator not to transport her. The former also threatened her with arrest and handled her violently.

A plea of not guilty has been filed by the bus firm.

## Hawaiian Woman Leader Opposes Their Statehood

By HUERT I. WHITE

HONOLULU (ANP) — Mrs. Alice Kamohaka Campbell, longtime Hawaiian leading women political figure and Hawaiian Republican senate aspirant for this term, told a large gathering here recently that she does not favor these islands becoming a state at present.

She said, "The present attitude of members of congress towards colored members of congress is discriminatory, and Hawaiian senators and representatives experience the same discrimination when appearing before members of that group."

Mrs. Campbell has always publicly maintained that there are "too many Japanese" wielding political power in Hawaii, and that most of the island's representatives to congress (should statehood come) would be Japanese or Chinese and Filipinos.

However, this correspondent found many of the orientals shocked to find out that they are considered to be "colored." They have always thought themselves much "higher" than being "haole" which means white in Hawaii.

Mrs. Campbell said that she has been to Washington many times and finds that racial discrimination against colored members of congress is "very evident." She says she believes it will serve the Hawaiian Islands no good by sending "colored" representatives to a congress which discriminates racially.

Further, she indicated that in the event there is a war between the United States and Russia, pressure could be brought to bear on the Japanese, Chinese, Koreans and other orientals, who live in Hawaii, to side with Russia because of their racial ties with the people of Manchuria and Mongolia, who are pre-visit.
