A. Powell Davies To Speak At Youth Meet

WASHINGTON — Dr. A. Powell Davies, Washington civic leader and pastor of All Souls Unitarian Church, will deliver the keynote address at the opening session of the third annual Youth Legislative Conference of the National Association for the Advancement of Colored People, which will be held at Howard University here from April 29-31.

Dr. Davies, described by Time magazine as "one of America's outstanding liberal clergymen," is chairman of the Emergency Conference on Civilian Control of Atomic Energy in 1946. He is a member of the board of directors of Federal Union, Inc., and has been active in well-known national church and civic groups. He is a contributing editor to Freedom and Union and is author of American Destiny, The Faith of an Unrepentant Liberal, and the forthcoming The Religion of Reality.

Mrs. Hurley has announced that more than three hundred representatives of NAACP youth councils and college chapters have been known their intention to attend the four-day conference. Delegates will meet with their elected representatives in Congress and will conduct working sessions on a four-package legislative program covering education, economic security, social welfare, and civil rights.

HOUSING FIGHT STORY IS TOLD IN APRIL CRISIS

NEW YORK — The round by round fight to get Negro families into the Leo J. Rogers Homes, a New Jersey state housing project in Trenton, is recounted by Clifford B. Moore in the April issue of The Crisis.

Although the state law under which the project was developed specifically forbade racial discrimination and segregation in occupancy, it was not until after the National Association for the Advancement of Colored People had mobilized sentiment in the community that Negroes were admitted to the Rogers Homes without discrimination or segregation. Mr. Moore's article points out:

Other features in the current Crisis include articles by George Padmore on the "South African Race Riots" and by Doris Callahan on "Intergroup Relations and Filmstrips," reproductions of both Beal's sculptured portraits and an editorial analysis of the Senate filibuster.

NAACP FUND GROWS

NEW YORK — Miss Lucile Black, acting director of branches of the National Association for the Advancement of Colored People, announced this week that 100 branches of the Association have been added throughout the country since the beginning of the year. She announced that a special fund-raising drive is being conducted to raise \$100,000 for the NAACP's 10th anniversary fund-raising effort.

Contributions to the Fortieth Anniversary Fund were received from NAACP branches in Saginaw, Mich.; Salinas, Cal.; Chicago, Ill.; and Ashland, La.

The war has politicized a vast number of people, and ever since they have been asking for peacetime production and other controls. Morris Sayre, Pres. Corn Products Refining Company.

NCC THESPIANS ARE PRESENTED BY ALUMNI BODY

The New Bern chapter of the North Carolina College Alumni Association presented the North Carolina College Theatricals in the play "Death Takes a Holiday" here Friday night, Feb. 27. An appreciative audience filled the auditorium to capacity, and the standing ovation and "encore" were a tribute to the excellent performance. "Death" is a play by Terence Rattigan, which was first produced in London in 1938. It was the first dramatic performance to be presented in the United States.

Directed by the Theatricals, the play was extremely high because one of the players was a former New Bern student, Debra Ross, who was well known for her previous performance in several local high school productions. This was the local chapter's first

and affair presented in behalf of their scholarship drive. The Theatricals were under the direction of Miss Mary Bohannon, head of the department of dramatics at North Carolina College at Durham.

Miss Carolyn Smith, daughter of Mr. and Mrs. J. H. Smith, introduced the group after the performance in a delightful buffet supper at her home.

DETERMINATION
By John Henrik Clarke for ANP
I've felt the same
O'er many nations,
I've drunk the water
Of many springs,
I am old,
Older than the Pyramids,
I am older than the race
Who oppresses me;
I will live on...
I will outlive oppression;
I will outlive the oppressors.

"I think Daddy was a little short in putting me to bed," Margaret Clarke said to her father's servant, "but he's giving a walking stick to his grandson."

ARMY CHAPLAINS' PEACETIME ACTIVITIES

U. S. Army chaplains officiated at 10,898 marriages in the 17 months following July 1, 1947. In the same period there were 11,958 baptisms and 4,741 professions of faith. The marriages include the three major faiths: Protestant, Roman Catholic and Jewish.

The Chaplain Corps has been linked with the Army since the beginning of the nation's history. As the U. S. Army developed through successive intervals of war and peace, chaplains increased in number and the significance of their contribution to national defense became increasingly recognized.

As of January 1, 1949, there were 1,221 chaplains on active duty with the Army and Air Force.

At the height of World War II enrollment (July 1945) the Chaplain Corps numbered 8,171. World War II chaplains were awarded 2,375 decorations; 18 received the Distinguished Service Cross; 157, the Silver Star; 106, the Legion of Merit; 26, the Soldier's Medal; 1,236, the Bronze Star. A total of 78 chaplains were killed in action; four died in Japanese prison camps; 264 were wounded in action.

Now that hostilities have ceased and the occupational hazards of the military have decreased, chaplains no longer need share with their men the emergencies of battle. The Chaplain's basic program, however, changes little with the cessation of hostilities. The chaplain continues to arrange for and conduct religious services, provide moral counsel and religious ministrations, and encourage the growth of character and morale. The problems of morale and morality are ever present, calling for the utmost ability in counseling and spiritual guidance from the chaplains. It is a challenge which must be met with industry and intelligence, courage and vigor. The objectives of the chaplain ultimately contribute to a more effective Army, for strength character is a vital factor in national defense.

SAY YOU SAW IT IN THE CAROLINIAN

BAPTISM IN ARMY CHAPEL—Not unusual is this scene of infant baptism by chaplains of the Army. The photograph reproduced above shows six children of soldiers being baptized in a military post. Fathers, mothers, relatives and friends are present and a day of rejoicing may be visualized. Since July 1, 1947, 11,958 baptisms of children and adults have been recorded by Army chaplains. This does not include thousands of soldiers' children who were baptized by civilian clergymen.

PETROLEUM PROGRESS

FIRST well, Drake's folly, brought in Aug. 27, 1859, at Titusville, Pa. Spurred by thousands of patented inventions and advent of Automobile (1885), 40-year-old petroleum industry now one of America's largest, most vital. Advancements of this field progress include development of: lamp's method of refining oil to well bottom (1824); pipe line, railroad tank car (1855); rotary drilling rig (1896); thermal oil cracking process (1911); catalytic cracking (1930).

America's petroleum industry revolutionized transportation, manufacturing, farming... employs over 2,000,000 persons. Financed by National Patent Council.

CONTINENTAL FEATURES

S' MATTER, CHUM?
GEE WHIZ BREEZY! I DUNNO.

I KINDA FEEL OKAY, ANDY, BUT I THINK I MUST BE SICK.

WHY DON'T YOU TELL YOUR MOTHER?

YEAH? AND LET HER MIX UP SOME OF THAT CURE-ALL SPRING TONIC? THEN I WOULD BE SICK.

OH, I GUESS SO.

BOY! WHAT A GRAND SPRING DAY! EH, BOBO?

GUESS I'LL GO SEE DOC CURRY! I ITCH ALL OVER AND I FEEL KINDA HOT.

YEAH! YOU ARE PERSPIRING A BIT!

BUT SHUCKS, YOU DON'T NEED TO BOTHER HIM, ASK OL.

DOC BREEZY?

ARE YOU KIDDIN'?

COURSE, AFTER I CURE YOU, YOU'LL HAVE TO TREAT ME TO A DOUBLE-DIP SUNDAE!

OKAY, IT'S WORTH IT!

TELL ME, PALK, WOTVE I GOT FEVER AND A RASH? OR WOT?

NEITHER, BOBO.

—YOU'RE STILL WEARING YOUR WINTER UNDERWEAR!

INFLATION

By William Henry Huff for ANP
Inflation is the road to future we and sorrow. By it a training heavy load is laid up for tomorrow. It parades "pure" insight and kills the sense of reason. Both in and out of season.

Twenty-two pictures of humane faces, the nodules they produce, and the effect of insecticide on clovers, soybeans, peas, tomatoes, peanuts, vetch, and other shrubby crops, illustrate the U. S. Department of Agriculture's New Farmers Bulletin, "Legume Inoculation." Copies may be obtained free from the USDA Office of Information, Washington, D. C. Ask for Farmers Bulletin No. 2963.

For Tax-Free Food

30 STATES ENJOY
YELLOW MARGARINE
BUT DON'T ENJOY PAYING TAXES ON IT

Washington, D.C. — Mrs. J. C. Allen, Miami, Florida, housewife in a gray blue bonnet, adds her bit towards the fight for the repeal of all Federal taxes on oleomargarine as she parades with her sign in front of the Capitol, where the House Agriculture Committee held hearings on the margarine tax repeal bill.

Timely Farm Hints

A light starch always gives fully the fur but not the water out but suggests a crisp look. If the acetate renders a very stiff finish, use a "cold water" starch. Wrap in a towel and iron while quite damp. A few uses and pieces with wrinkles from the wrong side. The crumple will stand on even cloth if based on a Turkish wool.

Some foods such as fish, make a most desirable meal. This is because of a tendency to hold in the fat. Baking soda can be used to remove this oil and remove this odor much and effectively. It can sweeten your types of odors, too.

Leather buttons of both will look newer and brighter if they are rubbed with saddle soap when they are obtained at drug stores.

TO SPEND MILLIONS
Steel companies will spend \$627 million in 1949 for improved and expanded facilities, according to the American Iron and Steel Institute. But the white iron of the world's wool found on mules, sheep, and children's clothes and even negligees, can be washed in hot, warm water and mild and custom. So, dates around the end of January were at an all-time low break the leather skin under-pipe.

Future Farmers Visit Detroit

DETROIT—National Officers of the Future Farmers of America, an organization of 270,000 young farmers studying vocational agriculture, met top Right industrial and business leaders and toured Detroit manufacturing plants during a two-day visit to the Motor City. Above, Doyle Comer, of Starks, Florida, president of the Future Farmers, and Frank E. Pitzer, vice-president, Dearborn Motors Corp., look over a model of the Ford Tractor manufactured in Detroit.
