

AFRICAN ROUND-UP FOR VACCINATION — Antrycide, the new vaccine developed by British scientists in the war against cattle diseases, is now available in quantities large enough to permit mass inoculation of all

cattle in the Sudan. Experiments have proven it to be effective against the dreaded epidemic of rinderpest. Tests, so far very satisfactory, are also being carried out in the hope that Antrycide will be completely suc-

cessful against trypanosomiasis (sleeping sickness) in African cattle. A round-up of cattle is shown above prior to mass-inoculation in the Kajo-Kaji district of Equatoria province, Southern Sudan. —(ANP)

HOW DO YOU LOOK?

BY EESSIE F. BELL

Men like their women feminine—and never before were the styles more delightfully feminine than they are now. In the world of fashion, truly this a woman's age, and so girls make the most of it in every way.

How is your complexion? Is it sallow? Are you troubled with a few pimples? Aside from washing your face with a mild soap and a clean cloth try taking a mild laxative at regular intervals. Also remember there is nothing quite like a good cleansing cream to do the deep pore-cleaning job on one's complexion. Very often you know it is a good complexion that prompts others to exclaim, "What a pretty girl."

A few traits that mark a pretty girl: an easy carriage when you walk; a graceful manner when you sit; Well-groomed nails and hands; to rise easily from a chair; to stand tall and straight; to refrain from awkward motion; to apply your make-up correctly; arrange your hair from the back as attractively as elsewhere on the head.

AN EARLY FORECAST FOR FALL COIFFURE For both day and evening wear you will keep the hair close to the head. Only you lighten the hair-d; in the evening with an ornament or two. A few scatter-pins attached to small curls, also, or you may use fresh rebonds in the same manner.

ETIQUETTE SAYS — When a professional girl marries and she has used a different name other than her family name, her real name is engraved on the wedding invitation, then her professional name is engraved beneath in very

small letters and in parentheses. Feet — Oh feet! Yes, they are a part of you. You know, even though we know how important the feet are, I am afraid that we are inclined to look upon them as a stepchild, so to speak.

We are so wise in many ways and we have every advantage in that we know how to keep ourselves beautiful, yet all too often we fall short of the mark.

How often have you noticed an attractive girl and while you are looking at her at an eye level her plumage is pretty in every detail. But when you glance downward and your gaze rests upon her feet, you see her in a different light. For like the peacock, her beauty and grooming is sadly neglected. And the entire picture changed.

A good treatment for your feet first soak your feet in water as hot as you can bear, for ten minutes. This, of course, after you have washed them clean with soap. Then plunge them into cold water for five minutes. Alternate three or four times.

Now, dry your feet thoroughly. Get out your cleansing cream and go over your feet with this. Wipe away excess cream. Then give your feet a pedicure in the same manner that you give yourself a manicure.

Do this regularly girls and you will have one thing that the peacock has not — beautiful feet.

A TIP FROM FASHION — Do not wear bare midriff or sunback dresses on city streets. They were designed for the country club and beach wear.

ETIQUETTE SAYS — When the engagement is broken, all gifts must be returned even though you may have used them for a long time.

I now offer you a new leaflet in addition to the others, they are: **TEN POINTS ON BEING ATTRACTIVE SLIMMING T H E WAISTLINE. MINERALS FOR BEAUTY and YOUR MEASUREMENTS.** Enclose ten cents in cash or stamps for each leaflet to cover mailing and handling. If foreign, 30 cents for each leaflet. Address: Bessie F. Bell, care of Global News Syndicate, Inc., P. O. Box 56, Marltonville Station, New York 27, New York.

KINSTON

ROCHESTER TO TOUR NATION WITH REVUE

Rochester's Eddie Anderson, brilliant comedy favorite of The Jack Benny Show, radio, has returned to program, will appear in person as star of Hollywood Variety Revue, "spectacular burlesque and music extravaganza," booked for appearances in 14 principal cities of the west, midwest, southwest and east, commencing in Denver, Colorado, July 28. The super-entertainment will be presented only in baseball parks, outdoor stadiums, arenas and the larger auditoriums and theatres if was arranged by the tour director.

Billed as a revue of radio, stage, screen and recording stars, Hollywood Variety Revue boasts the greatest concentration of star talent and headline personalities of any "one person" show now on tour. In addition to the hilarious comedy of the inimitable Rochester the star-studded cast features The Jolobros, singing stars of the Amos and Andy program, Mabel Scott in "Elevator Boogie" part and The Edwards Sisters, exciting dance stylists, featured in many film productions. Other performers include top specialty and novelty acts. A special extra added attraction will be Joe Latcher, creator of the current smash-hit record "Mardi Gras" and his augmented orchestra.

VISITOR — Mrs. Edna E. Brown, of East Orange, N. J., who was in Greenville recently to visit her grandmother, Mrs. Agnes Brown and her aunt, Mrs. Clara Toorn and other relatives and friends. She has now returned home to New Jersey.

CITIZENS SEEK SWIMMING POOL

KINSTON—The Negro Citizen's Welfare League made plans to back a proposal for a Negro swimming pool and to advance the improvement of sanitary conditions on Oak and University Streets.

A recreation commission to further the interests of supervised recreation was also formed. League officials cited need for sanitary toilets and sewers for the Oak and University Streets residents. The swimming pool project was among a number of other suggested improvements for the general welfare of the city, officials of the League stated.

Dies Of Heart Attack

KINSTON—Miss Mamie Raye died of a heart attack in downtown Kinston Friday morning.

Miss Raye died after treatment of a heart condition at the foot of the steps leading to Dr. Henry Temple's office, it was reported.

She is survived by her mother, Mrs. Martha Raye of Tower Hill Road. Miss Raye was 45 years old.

Any Hungarian farmer owning more than 15 acres is subjected to practically confiscatory taxes by the Communist government, says Evrene Nagy, former Hungarian premier now in America.

The soil tax is levied annually in the farms larger than 10 acres, Mr. Nagy said, adding that if taxes remain unpaid, the government seizes the property. The Communist-controlled labor exchange ignores all requests for labor on the larger farms, he reported.

India leads the world in peanut production.

While some 60 per cent of all farms have cars, only 42 per cent have telephones.
