OBER ACT DEFEAT POSTAL ALLIANCE HEARS MITCHELL

KANSAS CITY, Mo. — "The N. A. C. P. is determined that discrimination because of race in the federal service shall cease," declared Clarence Mitchell, labor secretary of the NAACP, in an address here this week before the National Alliance of Postal Employees' Convention.

Citing the employment of Negro postal employees in Winston-Salem, North Carolina, and in New Orleans as "two important precedents in the field of government employment" during the past year, Mr. Mitchell nevertheless deplored the fact that "the agencies of government are still bound by red tape in their approach to discrimination in employment."

Denouncing those who use violence to prevent their fellow citizens from exercising the rights guaranteed them by the Constitution, Mr. Mitchell called for an attack on "the real culprits" by newspaper writers and others who shape public opinion.

"We have faith in the people," stated the NAACP official, "and we shall continue to tell them of the injustices in this country because we believe that most men favor freedom for their fellows. The future is full of promise for those who have the courage and determination to take a stand for full citizenship and full equality."

Domestic consumption of cotton declined more than seasonally in June and at 390,000 bales was 209,000 below June, 1948. Exports through May this season were nearly two and one-third times as large as in the same period last year.

Large marketing of chickens are in prospect the next few months, says the U. S. Department of Agriculture.

NEW YORK — Acting Secretary Roy Wilkins of the NAACP this week hailed as a "healthy sign" the outlawing by Maryland Circuit Court Judge Joseph Sherbow of Baltimore of the Ober Act, which set up fines and prison sentences for people who joined or worked with "subversive" organizations.

The NAACP has consistently taken a stand against loyalty orders and "anti-subversive" laws, contending that such orders have been used to label as "subversive" individuals and groups who protest racial segregation and discrimination.

Delegates to the recent 40th Annual NAACP Conference in Los Angeles adopted a resolution specifically condemning the Ober Act and calling for an end to the loyalty program, which has helped create national hysteria and fear and is a greater danger to the strength and integrity of our democratic ideals than is the danger which the loyalty program was designed to cure."
