## JOHNSON IS SUCCESS IN BOP CITY SHOW

NEW YORK — Buddy Johnson, who has been hailed as the "newest" band in the land and one of the biggest money-making musical acts of all time, has finally won the big Broadway lottery, which recognition as a leading concert star for the nation's No. 1 major band shows in his engagement at Broadway's famed Fox City where the Johnson show towered in last year's Fall Assemblage. Broadway's

fortified with a veritable bag of musical tricks, Buddy, his block-busting band and vocalists Arthur Pryor and Ella Johnson invaded the music critics and public with their respective ears with a blend of music that all too long has been missing from the Broadway scene.

Buddy's much success at Fox City was only summed up by an executive of one of the major booking agencies, not his own, who declared, "There's nothing wrong with the band business today that a band like this can't cure."

## LABOR PARTY FINALLY SUFFERS DEFEAT IN ENGLAND

BY A. J. SIGGINS

LONDON (CAMP) — In New Zealand, the Labor party has suffered a defeat after its effort of power and the Conservatives have been elected by an approximately 10 percent majority vote. Mr. Harold, Conservative leader, has already gone to the prime minister in the new government.

Holland is reported in the British press to have said he had built a world stick by the "last old empire" — so the Tories here are rejoicing merrily.

New Zealand did not win the war, but she is going back to conservatism and private enterprise," many are saying.

Holland was born in Yorkshire, England, and emigrated to New Zealand. He knew very little if anything of Africa.

When Holland speaks of the "old empire" he includes Africa. But few Africans would agree that there is anything in the history of African colonies to endear them to British white imperialists. All they can say is clean and just justice was, and is clean and that many Britons were good friends of Africans.

But no Briton can state with any degree of truth that Britain has done her duty to Africa or that she is now capable of either defending her African colonies or of defending them. Britain is in fact, busy trying to create a huge war base in Africa and thus she is at the present deceiving Africans. No one has told them that they will be working and fighting to maintain white imperialism — the "colonialism" that both President Truman and Pandit Jawaharlal Nehru said they would destroy.

Thus, while the U. S. and India are destroying colonialism, Britain, South Africa and Australia are lazing to defend it and embryo deceit, innocent colonials who have no voice in their own affairs and not the slightest inkling of what is in store for them.
