## Hatching Eggs To Restore Korea's Poultry

Just about wiped out by the embattled armies which swept through southern Korea, was the agriculture of that unfortunate country. Farm stock went to feed invaders and defenders, alike.

Whenever a disaster of this kind occurs there always seems to be a group in America which rises to the occasion. This time, it was the Church of the Brethren, which started a movement joined by several other religious organizations and the Heifer farm organization to restore Korea's farm production.

Shown here is a shipment of hatching eggs which, in order to preserve their fertility, had to be shipped quickly. This quick transportation allowed the eggs to reach Pusan, Korea in ideal condition

Judge is such a good sport that he'd let a legally registered voter of the right politics give his wife a hot foot in the line of good clean fun as long as the prankster said nothing detracting about Judge's coon dogs. So when the hypnotist asked for volunteers to submit to his tomfoolery, Judge figured the gag might be worth a few votes and leaped upon the platform.
