So we repeat that last week Durham was celebrating one hundred years as a city, many of which have been milestones have been fought to establish and maintain the principles of democracy, the people of Durham are ignorant of that fact. Yet, ignorant as to what has been done by this Centennial is being educated, ignorant of the fact that today the whole world is finally concerned about such a showing of ignorance.

Father Duvel's record would reveal to Durham that time really marches on. His anticipated record would show that the actual backward areas of the world today are the areas where the sunlight of Truth and Love has not penetrated the dark clouds of bigotry and hatred and that no people in Durham or elsewhere are classified as progressive who deny justice and equality to a helpless and defenseless group of its people.

So we repeat that last week Durham was celebrating one hundred years of superstition, ignorance and backwardness through self-destructing evils that unless corrected, will prevent a similar celebration 2033.
