

# \$ DOLLARS and SENSE \$

By E. M. Butler

**CONSTITUTIONAL EDUCATION.** The American people have learned the hard way that the Constitution is the only way to secure freedom and justice for all. It is the only way to secure the right of every man, woman and child to live in peace and happiness. It is the only way to secure the right of every man, woman and child to work for a living and to share the fruits of the earth. It is the only way to secure the right of every man, woman and child to have a say in the government that governs them. It is the only way to secure the right of every man, woman and child to be free from the oppression of a few men and to be free to live in peace and happiness with all men, women and children.

Our forefathers wrote the Constitution for the purpose of securing the most perfect Union for the American people. They gave us a government that was based on the principles of justice and equality. They gave us a government that was based on the principles of freedom and democracy. They gave us a government that was based on the principles of peace and harmony.

It is our duty as citizens to know the Constitution and to defend it. We must know the rights and responsibilities of citizenship. We must know the principles of democracy. We must know the principles of justice and equality. We must know the principles of peace and harmony.

Let us all join together in a grand crusade to secure the rights and responsibilities of citizenship. Let us all join together in a grand crusade to secure the principles of democracy. Let us all join together in a grand crusade to secure the principles of justice and equality. Let us all join together in a grand crusade to secure the principles of peace and harmony.
