Court Decision One Of Great Events

AS SEEN IN NAACP'S ANNUAL REPORT

300-YEAR-OLD AMERICANS

NEW YORK -- Easily the most significant event on the civil rights front in 1954 was the United States Supreme Court decision of May 17 banning segregation in public education, Walter White, executive secretary of the Na-tional Association for the Advancement of Colored People, said in his year-end report of the Association's ac-

tivities. The NAACP executive, in his report released today, rated the ruling as one of eight epochal events in the more than 300-year history of the Negro in the New World. The decision, he said, 'put

the law of the land unequivocally on the side of the guarantees of human rights which are written into every document which has made the United States the greatest democracy in history . It marked America's turning of the corner from partial liberty to full freedom for all its citizens."

The Supreme Court, Mr.

White declared, deserves "unqualified praise for its unanimous and anequivocal decis-ion on this basic moral issue. So, too, do we owe a debt of gratitude to President Eisenhower for his firm stand against racial segregation in Washington and the Armed

Services." However, the N. A. A. C. F. secretary pointed out, "that praise extends to very few in his party. We hope that both he and the Republi-can party will recognize the (CONTINUED ON PAGE 8)
