### ODDS-ENDS

By ROBERT G. SHEPARD

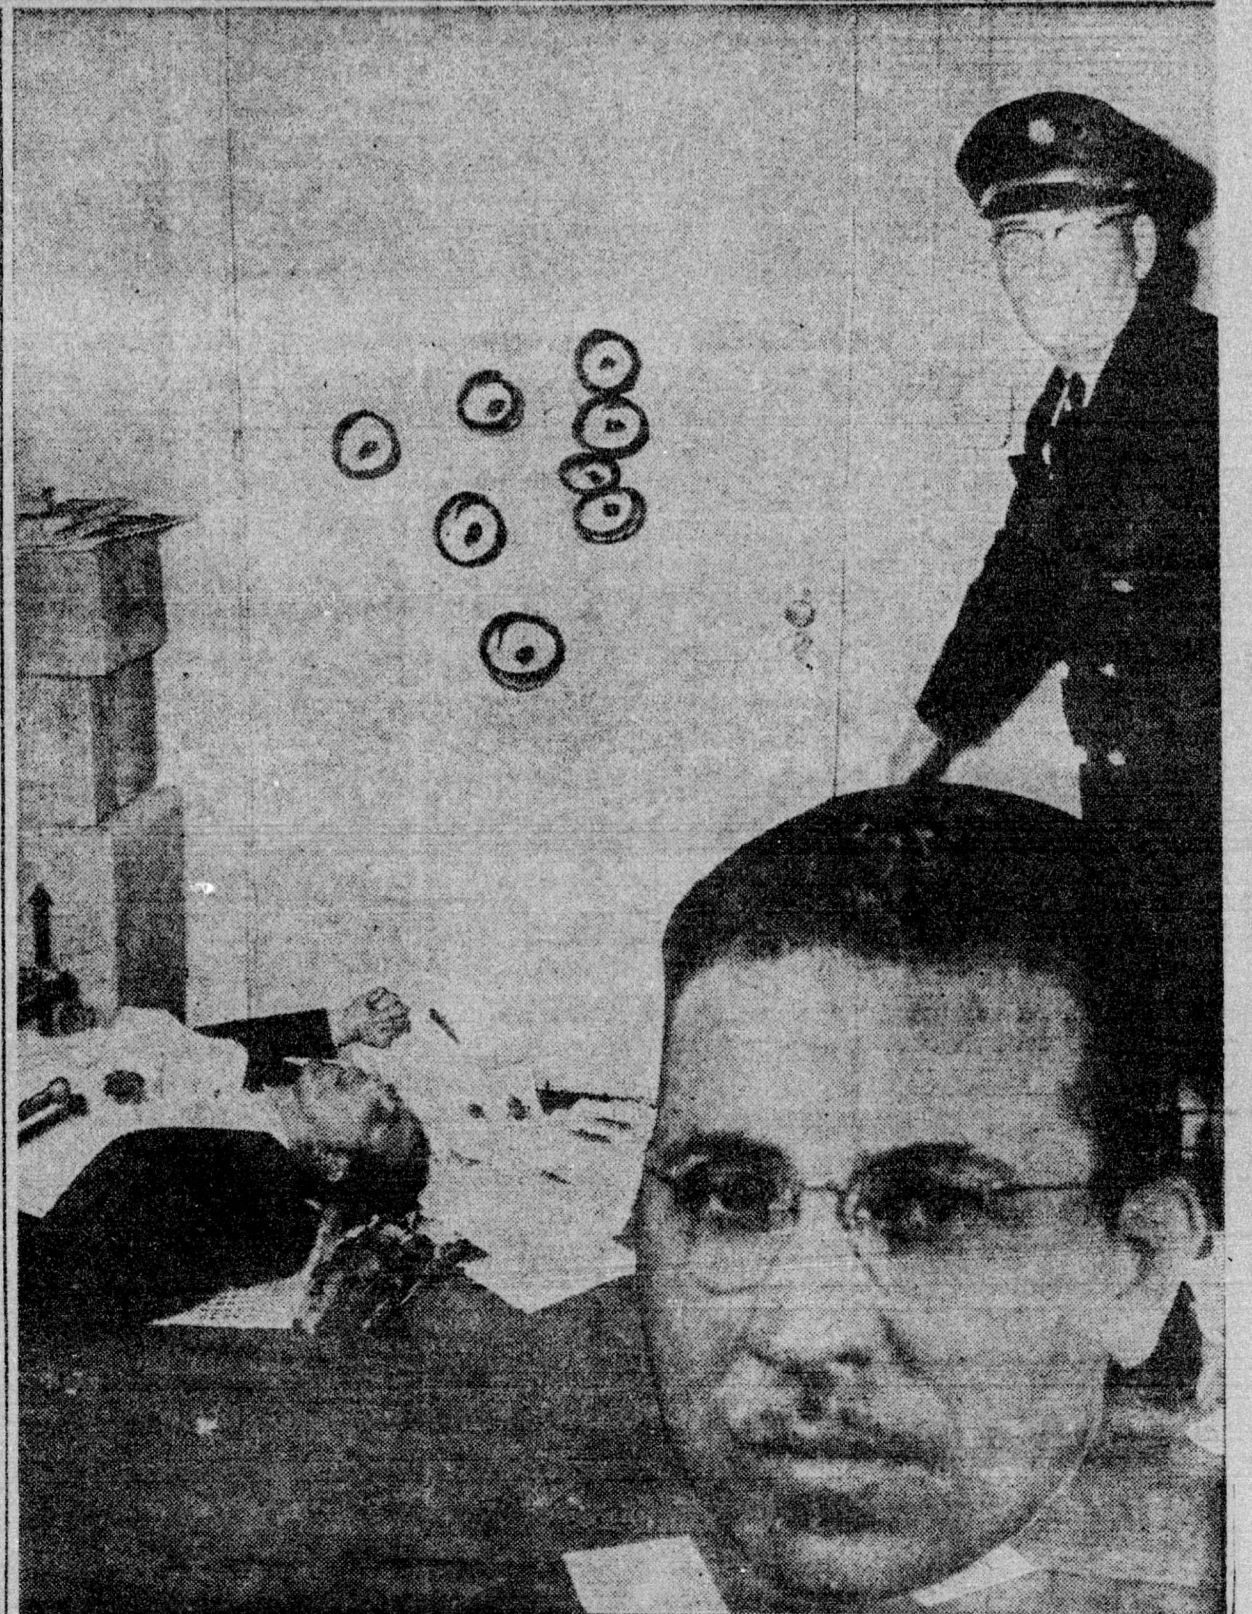

It is comforting to know that there are two members of the Raleigh School Board who are willing for the public to know they are in favor of integration in the public schools.

Two weeks ago school board attorney, F. J. Carnage and Prof. W. T. Clark, speaking to a nationwide audience on the NBC program "Weekday," gave their unqualified support to school integration and denounced the hypocrisy and bias of segregation.

Mr. Carnage is a successful Raleigh attorney. Mr. Clark is a long-time member of the faculty at N. C. State College here in Raleigh.

## UNC Integration Stays, Says Court

WASHINGTON—Integration at the University of North Carolina is here to stay!

This, in effect, was the ruling of the U. S. Supreme Court on Monday when it affirmed a decision that tax-supported colleges and universities cannot deny Negroes admission solely on the basis of race.

As in its May 17, 1954 decision striking down segregation of white and Negro pupils in public schools, the court's decision was unanimous.

It affirmed in 13 words a decision by a special three-judge federal court in Greensboro which ordered three Negroes admitted to the University of North Carolina.

The lower court had rejected as "without merit" the contention of

## Barnes Blasts Democrats, Challenges Republicans

(Special To CAROLINIAN)

DURHAM—The political pot, as it affects Republicans in this area, started boiling here Saturday, when the Durham County Republican Committee, met in the courthouse.

Aside from electing A. A. McDonald, white chairman for another four years and unanimously electing Dr. J. W. V. Cordice, vice chairman there was no excitement until Alexander Barnes began blasting the Democrats and challenging the Republicans.

The veteran newspaperman called attention to the fact that the Republicans had the best opportunity to elect a governor that they have had since 1898. He pointed out that Governor Hodges had blessed the Negro vote goodbye, by his stand on integration.

He also reminded the Republicans that there were two things that the Democrats hated in the state—a white Republican and a Negro. He told them that he saw

## What's Happening On Desegregation Front

### Civil Rights Meet Uses Gov't Building

WASHINGTON—Protests by 30 Southern Congressmen against the use of an auditorium in the Labor Department Building for a three-day national civil rights assembly were turned down by the General Services Administration.

Charles K. Ford, acting GSA regional director, wrote Rep. John Williams (D-Miss.) that the meeting was not political but "rather one to discuss non-partisan social problems."

### Ala. Suits Called "Two-Bit Publicity"

NEW YORK—Damage suits for four million dollars filed against the NAACP, Miss Autherine Lucy, Mrs. Polly Hinton and three NAACP attorneys by three white construction workers and a truck driver were termed "two-bit publicity of a counter-attack to escape prosecution" by Thurgood

Marshall, chief NAACP counsel, here this week.

The suits claim that the four were falsely accused of being members of a mob that prevented Miss Lucy from attending the University of Alabama.

In a radio interview here, Marshall said that anyone who tries to keep Miss Lucy out of the university "is going to have to answer to the highest court of the
