At Hampton, Va.:

# Joe Brady Takes Over AS Public Relations Chief

HAMPTON, VA. — Joseph J. Brady has been appointed Director of Public Relations for Hampton Institute. He replaces Dr. Boris E. Nelson, who has served as acting director for the past year.

## INDIAN SIGN

Nothing much surprises a New Yorker anymore, but the city's citizens got the surprise of their lives recently when they looked up and saw real Indian smoke signals. The latter were sent by Blue Hill, a Kiowa brave, and Princess At-Nah-Wake of the Cherokee nation. The visitors were from Oklahoma, and sent up the signals to invite all New Yorkers to attend Oklahoma's Semi-Centennial Exposition in Oklahoma City June 14-July 7. The signal-taking took place aboard the Circle Line flagship, Miss Liberty, anchored off the Statue of Liberty.

Brady comes to the college from New York City where he was engaged in public relations and publication work for a management consulting firm. His background includes public relations, news-reporting, television production and education in the West.

In the past Brady was also associated with various theatrical production groups, professional community and educational in the Rocky Mountain area.

While in Denver, Colo., Brady worked as a director and carried out public relations functions for Empire Television Productions, which was headquartered there. A graduate of the University of Colorado, Boulder, he has served on the staff there for public relations and publicity and has worked in production and direction at the University theatre. He was also active in the Boulder Community Players.

Brady was instrumental in the organization and was a director of the Thirteenth Street Players, a summer stock company which played the Rocky Mountain area. Mrs. Brady, formerly Dorothy E. Mousart of Detroit, Mich., will arrive here soon with their two daughters. She has had a continuing interest in education, having taught in Detroit, Denver and Boulder, Colo.

About 96 per cent of all commercial farms in North Carolina are still family-operated.

# Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Does Both — Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery.

In one hemorrhoid case after another, every striking improvement was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place. And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!"

And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne) — the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository or ointment form called "Preparation H." Ask for individually sealed convenient Preparation H suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug stores. Satisfaction guaranteed or money refunded.
