"flim-flam game" found an easy prey in Miss Minnie Hopson, aged local woman here last week and when they finished their "get-rich quick scheme" the victim was out of \$3,400 of her life's saving.

The "trick" was said to have been pulled by two women. The first, said of a fat build, approached the woman and told her of having just found \$20,000 and was looking for a "good bank" in which to deposit same. Miss Hopkins is said to have recommended the Mechanics and Farmers Bank and the two started in the direction of the bank.

It was not very long before the second woman appeared and told of having found \$6,000. She, too, was looking for a reputable bank. The last self-styled finder is said to have changed the course of the other two women and they then headed for the Trust Building. The alleged finder of the \$6,000 is said to have gone into the building to ask a man whether her find was really good American money. She is said to have remained in the building a few minutes and then

"We thank thee and praise Thy glorious name. THANKSGIVING, 1962

A few short weeks ago this nation was contemplating the horror of atomic war. Those who know about such things say that when President Kennedy made his memorable television speech telling the American people of the steps he had taken to meet the Cuban missile threat, this country was nearer the brink of nuclear confrontation than ever before.
