## URGE INTEGRATION

### Mayor Urged To Act

The Raleigh Ministerial Association, a bi-racial interdenominational group made up of pastors of over 100 Raleigh churches, at a recent meeting passed a resolution asking for integration of Raleigh's public recreational facilities and urging all restaurants here to serve the public without discrimination.

Mayor W. G. Enloe and other members of the City Council have received copies of the ministers' resolution. It will be recalled that over the objections of Councilmen Winters and Coffey, the Council voted last summer to close the city owned swimming pools after several Negroes took a swim in the pool at Pullen Park, which the whites had illegally restricted to themselves.

The ministers' resolution signed by the Association's secretary, Rev. S. Collins Kilburn, minister of the United Church is as follows:

The Rev. Charles W. Ward, pastor, First Baptist Church, is the president of this interracial body.

Both the Raleigh Citizens Association and the Raleigh Council on Human Relations have requested action on these matters by the mayor. Mayor Enloe has been quoted as saying that although he has named six members of an advisory group on Raleigh's racial problems so far he has been unable to secure

### Housing Law Draws Pros And Cons

WASHINGTON, D. C. (ANP) — President Kennedy, at his news conference last week, announced the signing of an order outlawing discrimination in future housing aided, financed, or insured by the federal government. The order drew both commendation and condemnation from advocates of open occupancy.

The President's orders apply to single-family and apartment-dwellings with mortgages insured by the Federal Housing Administration or guaranteed by the Veterans Administration, public housing subsidized by the Federal Government for low income families, housing in urban renewal projects subsidized by federal funds, and college dormitories and the old people's homes built with federal funds.

Audible is the charge that the President did not go far enough with his order, and that the order - as it now stands - will do little to eliminate discrimination in existing housing.

URBAN LEAGUE SALUTES Whitney M. Young, Jr., executive director of the National Urban League, commended the president's action, but suggested that the action be viewed primarily as a "long over-due launching base for new, exciting and dispassionate" drive toward a solution of the nation's housing problems.

Young expressed regret that pro-

## Greensboro Group Tells S&W Cafeteria

GREENSBORO — A group of 30 Negroes, accompanied by a movie sound crew, staged a sit-in at a downtown cafeteria Tuesday, where some 50 Negroes had been arrested earlier, this month, on trespass charges.

The demonstration, at the S&W Cafeteria, lasted about 15 minutes, and there were no arrests. Manager R. L. Bentz said to each demonstrator — "We will not serve you. You will not be served. Please leave. You are trespassing."

All 30 demonstrators left, saying "We'll be back."

A four-man film crew accompanied the Negroes into the segregated cafeteria, but a spokesman for the demonstrators denied that the sit-in was staged just for the movie unit.

Graham Ferguson of New York, director of the unit, said he was making a movie on "The Negro in America" under contract to the B'nai B'rith organization.

### SHOWING THE WAY

The appointment of Negro attorney Henry E. Freye as an assistant U. S. District Attorney for the Greensboro district, leads to the conclusion that the Kennedy administration is trying to show the stand pat Sanford administration what it must do if the Negro vote in North Carolina is to remain in the Democrat column.

Odds and Ends reported several months ago that unless some type of job recognition was given the Negroes in the Greensboro area indications pointed to a wholesale change that district's Negro party affiliation. It was stated at that

### U. S. Labor Secretary

## Cites Poverty In The Midst Of Plenty

WASHINGTON, D. C. — "In the midst of abundance and in the course of fantastic growth, poverty persists as a major social problem, affecting a large segment of the population," Secretary of Labor W. Willard Wirtz told an audience of lawyers in an address before the Labor Law Committee of the Federal Bar Association here. Citing the paradox of the coex-

istence of an astonishing increase in the national standard of living and the fact that some 32 million U. S. citizens are living at a lower level today than the Nation is capable of providing, the Secretary, pointing also to continuing unemployment, characterized this a "contradiction of American life." As a solution for this paradoxical problem, he called for a substantial reduction in tax rates such as has been proposed by the President, plus general measures which would "maximize the benefits of growth by minimizing its drawbacks." The Secretary cautioned that because our basic purpose is the enrichment of people's lives, and not the improvement of our economic models, we are going to have to take a much closer look at specific, particular problems at the same time we worry about cosmic ones. "The American economy," he reminded, "is capable of going from strength to greater strength with only marginal, if any, improvements in the lives of the one out of five American families which in 1960 earned annual income of less
