

Over 500 Hear Pres. Kennedy Praise Sorority

WASHINGTON, D. C. — "There is no sense in having wide boulevards and beautiful buildings if the children who live in this city do not have an opportunity to develop their talents," the President of the United States said Saturday of the Nation's Capital.

"They may not all have talents, but at least those who have talent should have the opportunity to develop it. That is what the essence of freedom is. We do not have that satisfactory yet in this country."

Addressing some 500 members and special guests of Delta Sigma Theta, which was founded by 22 Howard University undergraduate women in 1913, President Kennedy extended his warmest congratulations to the members and founders on the fiftieth birthday of the organization, and expressed high praise for the Sorority's outstanding record of public service work.

"We are going to have in this decade nearly eight million young men and women coming into the labor market who have not finished school, who are unprepared, who have no real skills at a time when the great need in America is for skill."

"We are going to have them pouring out of our schools and they are going to be looking for work, and either they are not going to find it or they are going to find it under

"We have not been as successful as we wished to have been in the past, but we will stay at it, because a free society places greater burdens upon every citizen than any other kind of system. It requires an ability to make a choice to have those qualities of judgment and self-restraint which permit a democracy to operate."

poor condition," he said.

President Kennedy said this places a particular burden upon minority groups - the Negroes, the Puerto Ricans, and others.

The President further stated that many millions of Americans live in a family atmosphere which denies them equality of opportunity "not by law although, of course, that is done too much in the United States but by the very force of economic pressure upon them."

He added: "In addressing yourselves to this problem, making this the point of the spear so far as your efforts in the last fifty years, I think you are dealing with the most important matter before us economically."

"This Sorority has raised over \$600,000 for scholarships, and I hope that it will stimulate others to concern themselves and the American people. It is one of the matters which we are going to be working on in this session of Con-

With Faith... You Are Never Alone Attend Church Regularly

There is a reward at the top of...

THE CLIMB

**EVERYONE IN THE CHURCH
THE CHURCH IN EVERYONE**

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Even when you know the proper way to climb with skis and the way up becomes easier, it still exerts you. However, the way is made even less of an effort when you think of the rewarding ride down.

The reward of an eternal life with God is easier still because it is a gift.

"For the wages of sin is death; but the gift of God is eternal life through Jesus Christ our Lord."

Attend church... learn more of this wonderful gift.
