LET'S CLOSE RANKS

There comes a period in the life of a city's leadership, when in order for it to remain effective, some cardinal principles must be observed. Individuals who operate on guessing, malicious gossip, opinion or spontenity of thought without due regard to the basic facts, understanding and knowledge of the premise or subject in question, are as dangerous to a community as the immature youngster whose limited experience prevents a wide and clear horizon in the arena of some of the specifics that must be dealt with. This must be done, void of error or guessing, although the drama, enthusiasm and oratory are very prevalent.

Last Tuesday evening, at the First Baptist Church, is a case in point. Here, a demonstration of individualism shocked even some of the most vociferous, outspoken and fearless of this city's standard bearers. In fact the lack of dignity displayed, charged the climate with such selfish personalization, that visiting white

friends left the meeting in disgust.

It must be remembered that no one has special privileges, because of his presumptuousness as a leader, to chastise, abuse and insult others. These doings show great need for schooling in the prerequisites of leadership. Not only do we need decorum, dignity and proper parliamentary procedure, but there is much needed penetration of the correct aims and objectives in all matters, civic and political, without regard to individuals, but certainly with respect for the occasion as well as for those who are present and especially for those in positions of trust.

We are all subject to error, but errors are sometimes enemies to society. Meetings that may become charged with enthusiasm eagerness and even anger can amount to nothing, when permitted to take on the many porsonalities of individuals instead of intel-ligent presentation of the task at hand. It is not our purpose, however, to say that everyone should so temper his spirits that he would refrain from rising and expressing himself with dignity, forthrightness and honesty on any matter under discussion.

From what we have learned in attending two special meetings, namely, one in which a small group of leaders asked John W. Winters to confer with them due to the fact that he had written his resignation, and another where Mr. Winters asked the group to hear his, and his wife's considered decision, it is the on of this newspaper that Mr. Winters acted unequivocally in the best interest of the minority group when he prevailed upon Mayor Enloe not to resign at this time.

The distorting of the whole matter, as far as the public is concerned, stems from the council chamber, when a fellow-councilman referred to Mr. Winters as "John". Immediately, the telephone and the grapevine squad proceeded to tear him to

The true picture is that Mr. Winters, in this particular instance, made a distinct contribution to the continued progress in inter-racial relationship here. This is witnessed by the signs coming down at the Ambassador Theatre, through the efforts of the Mayor, who is both the manager of the Ambassador and the Mayor of the city. Had Mr. Enloe resigned, the possibilities are that the whole matter could have resolved in a much more prolonged affair and maybe in court action and the spending of money, not to mention some impairment of whatever good re-

lations now existing between Negroes and whites.

It is because Mr. Winters has been able to establish intelligent human relationship with his fellow councilmen, that he was able, in cooperation with them, to accomplish such things as traffic light at the Ligon High School crossing; opening of the swimming pool to all citizens; the appointment of Negro firemen and eleck-typists in both city hall and the main library; downtown lighting for the third ward area; resolving the correction of the intersection of Tarboro Road and Oakwood Avenue; the

Oberlin situation on resoning and many others.

It is possible that Mr. Winters has made some matakes, but there is an image of the man that represents us. We should support it as develop it to the fullest extension that the same into focus is that making the that four years of Mayor Enloc's tenure, much has been accomplished in Raleigh. Certainly, we have not, and do not agree with all decisions affecting Negro citizens, made by the Mayor, but he has in most instances acquitted himself well. He has but he has, in most instances acquitted himself well. He has made a unique contribution to all the citizens of this city. As an example, we well remember our difference with the Mayor regrading the Joe Louis Park area and its lack of sanitary facilities The Mayor did say that before he leaves office the Joe Louis area

This newspaper can recall no incident when Mayor Enloe evaded any meetings, Negro or otherwise, when his office should

All this is by way of clarifying, in a measure, the need for burying all selfishness, and erecting bigness and consideration for our revered institutions, officers and organizations. It will be to the good of all when we can measure up to the needs and demands of our city and our fellowmen, who are trying to do their best for our institutions, organizations and for the city in general and the minority group in particular.

If we have been lengthy, it was purposeful. Too much do we deny the good deeds of some of our people, white and Negro, and too little do we trample evil, hate and bigotry.

We believe that much has been gained in understanding throughout this community during the past week. Much, we hope, has been learned. But there is still much to be done. This can be made pleasant and worthwhile in joining hearts and minds in the tasks and responsibilities that await us in the immediate future.

"Ye shall know the truth and the truth shall make you free."
THERE MUST BE AN ANSWER During the past few days there has been a great deal of undertone rumblings going the rounds rela-tive to the part Councilman John W. Winters and the Rev. J. Oscar McCloud played in the decision made by Mayor W. G. Enloe not to resign his mayoraty post here. We feel there are one or two things we should say with the hope that what we say will help clarify

Reconsiders After Reassurance Of Trust, Confidence

tee and the NAACP called a special meeting at the First Baptist and the members of these organinations over the recent picketing
of the Ambassador Theatre, by
Shaw and St. Augustine's students.
Some members of the group actually took Mr. Winters apart on the
grounds that he acted contrary to
their wishes in asking Mayor Enloe not to resign at this time. It
appears that Mr. Winters, along
with the Rev. J. Oscar McCloud had
a meeting with the Mayor at which
time they asked him to hold up his
intended resignation pending a time they asked him to hold up his intended resignation pending a meeting with the leaders of the demonstration. According to one observer, the meeting degenerated into "name calling" and abuses, such that white sympathizers whe were in attendance left in disgust.

A further development, according to the same observer, came when Mr. Winters called a meeting of friends at his office, to meet with him and his wife to discuss the

had already decided to resign as City Councilman, and that he had, written the said resignation but had not mailed it. The letter was addressed to Mayor Enles and copies were made out to the other councilmen. Excerpts from the letter follows:

etter follows:

"... Dear Mayer Enleg:
During the early part of the
year I stated that due to operaitemal difficulties in my business and the lack of time to devote to my family, it would best
serve my interest not to effer
my services to the community
for a second term. Instead, I
yielded to requests to again offor my candidacy. My furnir
convictions plus recent health
problems force me to recentifior this decision and I new withdraw my candidacy and request immediate approval of
my resignation as councilman

for the city. . ."
The upshot of the whole matter was that the persons present, re-(CONTINUED ON PAGE 2)
