PRINCESS ANNE NOW FOCAL POINT OF DEMONSTRATION

(CONTINUED FROM PAGE 1) last summer's pledge to admit Negroes, but the remaining two are still adamant that they will not permit Negroes to use their facilities. As a result, the students have stiffened their resolve to continue the sit-ins, marches and other means of protests until total victory is achieved. In the meantime, however, injuries continue to mount as police, state troopers and guardsmen wield clubs, use dogs, and fire hoses to break up gatherings of Negroes anywhere in the city. In some instances, auto bumpers were used as battering rams to break up heavy numbers of demonstrations. The students, however, were not without means of retaliation. There were fist fights; bottles, sticks and rocks were hurled in a futile attempt to fight back. In the clubs, some 62 students were injured, four seriously enough to be treated at Peninsula General hospital in nearby Salisbury. One student suffered a possible fractured skull.

DR. PROCTOR QUILTS A&T; JOINS CORPS

(CONTINUED FROM PAGE 1) through August, 1963. He had served with the Peace Corps first as director of the program in Nigeria, Africa, as a part of a 20-month leave from the presidency of A&T, beginning in January 1962. He came to the college first in July, 1960. Referring to his resignation, Dr. Proctor said, "When President Lyndon B. Johnson asked Sargent Shriver (Director of the Peace Corps) to direct the 'War on Poverty', I found it difficult to decline Mr. Shriver's invitation to return to the Peace Corps. Despite my deep, personal loyalty to higher education in general and to A&T College in particular, the urgency of the summons to serve the country—especially after the death of President John F. Kennedy—seemed overriding." A native of Norfolk, Va., Dr. Proctor, 41, is a graduate of Virginia Union University, Richmond, Va., and holds the doctorate degree from Boston University. He pursued other graduate work at the University of Pennsylvania, Crozer Theological Seminary and Yale University. Prior to coming to A&T College, he had served at Virginia Union University as professor and dean and for his last five years there, 1955-1960, as president. "We can consider ourselves fortunate that we were able to persuade a man of Dr. Proctor's abilities to come back to us—especially to a position in which he himself served many of the policies," Shriver said. As Associate Director for Volunteers, the 41-year old Proctor will take command of an office which supervises the selection of prospective applicants, directs their training and backs them up while they are overseas. He will take up his duties at the Peace Corps on March 23.

scientific advance has started with skepticism and "doubt" is the father of discovery. He gave as examples the doubts as to the shape of the world, and the function of the steam boat. We must use our God given ability to doubt in order to have faith which overcomes doubt, he said. The more we doubt, the stronger becomes our faith. Faith in Christ in this era is hard to believe, for many people who say that man is gullible. Dr. Cunningham defined "Life as man's opportunity to do the will of God on Earth. God gets things done on earth through men and women on this earth. Men should have the courage to doubt their doubts. Shaw University is observing Religious Emphasis Week, March 1, through March 5. The subject of Dr. Cunningham's sermon on Tuesday March 3, was "This is Vital Religion." The public is invited.

If any Negro tries to sell you Dr. Lake, please advise the JOURNAL so that we might expose that Negro. Apparently incensed over the editorial, Dr. Wheeler, a Negro, said in his reply to Jerry: "There is an attempt on the part of the Wilmington Journal to tie a yoke around the Negro's neck to prove their support of Dr. Lake." The statement by Dr. Wheeler was made known on WRAL-TV Tuesday night of this week.

Although Mrs. Foreman's bond was set at \$100 on the files at Raleigh Police Headquarters, she said no one has been out there to guard her at any time. The Rev. J.
