More Time Needed

The recent resignation of Officer Alfred L. Grigsby again brings to attention a policy practiced by the City of Raleigh through its Police Department. Officer Grigsby resigned his position as an officer in the Police Department August 12 to accept a position in the Post Office, as a clerk in the next three days. August. 15, thus giving no notice with usually accepted time notice practiced in resignations.

In checking with Police Chief Tom Davis, regarding resignations in his department. The CAROLINIAN was told that both the department and its personnel have the prerogative of severing relationship without notice.

Such a practice could lead to some hardship

blasphemy to him. His God was no Bureau, no Rule Maker, no Accountant, "God is a spirit," he cried. "Between the great Spirit and the spirits of men-which are a tiny part of His-no one has the right to intervene with formulae and rules."

in the event of an emergency. The position of this newspaper is that the public interest would be better served should a reasonable time of notice be given in the cose of resignations of policemen. Should upward of twenty policemen decide to resign without notice, during an emergency, it would be difficult for the department to adequately cope with a problem that would require trained and seasoned officers. It is our belief that the public would be better served and protected should the department administration and its personnel abide by some regulatory system of time. We would suggest at least two weeks.

We Need Standouts – Not Handouts

A good many Negroes are thinking that the new civil rights bill will be the means for handout jobs to them. This will not be the case since training and skill are the keynote to employment.

At a recent conference on Reading Reform Foundation, a Negro named Mort Levi, a former research chemist at Sacramento State College in Califarnia, called attention to one of the Negro's greatest needs-skill in the fundamentals of reading and associated acume.

When Levi was teaching chemistry in Caliornia, he discovered that often he had to give his students a private course in remedial reading before they could do anything about science. Since the "look say", or "configurative contour," method of reading had already ruined some of his students so far as scientific precision in the use of the language was concerned, Levi had to experiment with old-fashioned phonics. This approach seemed to work,

The condemnation of the "look say" method of learning to read was also made recently by Dr. Allison Davis, distinguished Negro professor at the University of Chicago, who was consultant recently at an institute at Florida A&M University in Tallahassee. He told teachers that they could select better materials designed to help the Negro learn the basic skills of reading.

Regarding the Negro revolution. Levi says after he heard Dr. King speak once, he absorbed everything that the speaker had to say. "Once the Civil Right Act was passed," he said. "that was that."

Since the passage of the 1964 Civil Rights Law, it appears to us that demonstrations should be abandoned unless they are properly timed and have the assurance of winning their goals. Otherwise, like many demonstrations in the past, they will be ineffective.

duce-ins." Integration won't relieve the Negro of frustration. He needs to achieve independability as a producer. We want no relief handouts; we want self-respecting standouts." Professor Allison Davis said the same thing in other words. He stated that the Negro needed the assurance of success to boost his ego strength, because he needed to feel that he was somebody, going somewhere.

To get Negro "standouts", Levi insists, one must begin at the beginning with the reduction of Negro illiteracy. One out of every three Negroes in the U.S. is an educational cripple without basic reading ability. This very fact is a challenge to every Negro elementary school teacher, for in some way they must teach their pupils to read well.

Many citizens in northern locations have proposed "bussing" Negro children to white schools. This is not the answer becauce the teaching of reading in these schools have often been ineffective,-as has been in places like Harlem and Rochester.

Like Levi, we have been saying all along that 'pigmentation" of one's skin is no longer the issue, but rather can one produce or put "the job over." It's now a matter of qualificationcan you read and use language effectively?, do you have technical skills?, do you have professional "know-how"?, and so on. If a person can read and understand, he can learn how to qualify. Any person who con say "ah" can be taught to read in six weeks.

The Negro must put on a crash program in learning the basic skills of language-reading. writing, listening, and speaking. This must be followed by general knowledge in the humanities and science. Finally, the Negro must stay in school and learn a trade, a technical vocation, a profession, or what have you.

Only in the ways we have outlined can the

MORE SIGNS OF CHANGES MORE SIGNS OF CHANGES ROCKY MOUNT — "ONLY IN AMERICA'S" HARRY GOLDEN will be signally honored in Miami, Fla. August 24, during the 65th annual grand lodge meeting of the Improved, Benovelent, Protective Order of Elks of the World (IBPOEW). Elks Grand Exalted Ruler Hobson R. Reynolds of Philadelphia has ensured that Goldan a Character Philadelphia, has announced that Golden, a Char-lotte, N. C. publisher of "The Carolina Israelite" and the best seller "Only In America". (one of and the best seller "Only in America", (one of his books which has made millions laugh and even cry about segregation in our nation), will be awarded the Elijah P. Lovejoy Medal for distin-guished service in the fight for freedom of Ame-rican Negroes. (Lovejoy was a white editor who was mobbed because he wrote strongly about slav-

ery). Mr. Golden is a Life Member of the NAACP and

is the idol of lovers of justice. Congrats to Winston-Salem's achievement of, both student and faculty public school integration to start this fall. Let other progressive commun-

ities take notice—ACT. From the booing of the then Gov. Luther Hod-ges years ago at A&T College, one would never thought he would have changed to the extent that he is now-as Commerce Secretary on the national level-being frequently honored and apnational level—being frequently honored and ap-preciated by Negro groups (as he was last week by AME Church conference in Durham). When most Tarheelians get where they are not subject to the pressure of Confederate-minded voters, they talk more like Americans.

Token integration of at least two Halifax Coun-ty schools has finally been announced as being official when Enfield and Weldon units accepted

have admitted that they did not adjust well to the urban life and preferred to work at home at ex-cellent prices which were a saving to the imported businesses. This was greatly advantageous to both Indians and the manufacturers due to the hithero lower living standards on the reservations.

Morgan points out that the Indians are easily trained and not given to being the "clock-watch" ing" type of workers who are afraid they will do

too much work for their wages. The unemployment rate among 60% of the nearly 600,000 Indians living in or near the resar-vations is reportedly five times that of Negroes. about whom much is written, Morgan says. adding that Negroes are only ten per cent unemploy-ed. However, the Indians do receive a government subsidy to help maintain them. Additionally, in subsidy to help maintain them. Additionally, in getting and pooling their resources, the Indians have been abe to build plants for two or more ma-jor industries and obtain lucrative long-term-leases to enrich the Indian combine. We are trying to say that Colored Americans would do well to study the thriftiness of the Na-vajo and Luguna Indians; how they make them-rely conserved to the study and the them.

selves reasonably contented (at least for the time being) in their adobe homes made of mud and logs; or stones and other materials with the betlogs, or scones and other materials with the bet-ter ones having tin roofs—until they can get to something better. These Indians do not attempt to splurge as Negro Americans do. The Indian lives according to his financial capabilities while the Negro always lives far beyond his—with an uneven standard to boot.

We mean by that the period of integration and better living standards calls for CLEAN LIVING in body, mind and soul, as well as surreundings. It means that instead of driving a bigger car than our neighbor, we will buy a low-priced model and use the difference to fix up a decent, clean home of our own early in life and educate our children for the highly competitive tomorrow facing them That's what the Indian is doing. Some educated Indians are returning to the reservation, stating that the big cities are not suited to their way of life. Thousands of our Ne-groes would rather starve and/or be dragged to the depths of degradation in Harlem or Chicago's South Side than to exercise the sense of the Prodigal Son to arise and return to his father's hou where there is much more to share than in the crime-ridden metropolitan centers. Better is security and humility than scantines amid glamor. Remember the Bilbe text which says: Fride goeth before a fall; and haughty spir-it before destruction. And in this game of rights fighting, he who fights with the sword (bottles. knives and bricks) will perish by the sword. When God said: One can put ten thousand to flight, He evidently meant by fasting and praying, registering and voting, and working INTELLIGENTLY through the NAACP where some 150 of the na-tion's BEST lawyers know what and how to do things RIGHT. God is on our side ONLY so long as we are on His side. Don't throw any more botbricks children-north or south. GET OUT THE VOTE, JOIN THE NAACPI

"Sit-ins, lie-ins, and other things of the sort, aren't the answer to the Negro's troubles." says Levi. "What we need is "dignify-ins" and "pro-

Negro be "a student"; otherwise, as we have already seen, he will always be looking for "handouts."

Integrated Faculty Is Announced

A Florida Farm Success Story

There has been so much talk about integration of Negro pupils into formerly all-white public schools that Americans almost forgot that the ideal arrangement would be the appointment of Negro teachers to faculties of newly desegregated schools.

It is with a deep sense of pride that among the Deep South States North Carolina will soon lead the way. It has been announced that seven Negro teachers will be assigned this fall to formerly all-white Hanes Junior High School of Winston-Salem. According to official sources, Hanes Junior High School will have the first integrated school with an integrated faculty in the city-county school system. Not only this, but, so far as we know, this will be the first integrated faculty among public schools of the Deep South.

Hanes is being integrated for the first time this fall, and approximately 200 Negro students will be enrolled along with the assign-

There exists the notion that with the disap-

pearance of the tenant-farming system in the South, the Negro has made his exit from the

farming scene. Most of us were glad to "write

ment of the seven teachers.

Good teachers cannot be selected solely on the basis of race, and white teachers are not the only excellent teachers in the United States or the world. There are excellent Negro teachers as well as superb white teachers or yellow teachers. And we have poor teachers among all races and nations.

We are confident that these seven Negro teachers will give "their all" in the instruction of their pupils. We hope that each one will walk the "second, undemanded mile." It will take this kind of dedication to convince other school boards in the South that the experiment will succeed.

As a word of caution, all parents of the Hanes Junior High School should do their part to make the school program a success.

The appointment of these seven teachers indicates that a change is coming over the South in many ways.

the assignments of three or four colored students to each school. Previously, Enfield citizens had petitioned their school board to not accept the Negroes until the courts ordered it. Meanwhile, the federal suit by Mrs. Wills Cofield Johnson against the Enfield school officials for failure renew her teaching contract is scheduled for trial in New Bern late in August. Let's hope, work and pray that she wins for all of us. When A. Phillip Randolph, the nation's veteran

When A. Phillip Randolph, the nation's veteran Negro labor leader; and opera singer Leontine Price, both southern-born Negroes, are numbered among thirty noted Americans who were recipi-ents of the gold Presidential Medal of Freedom— highest civilian award—it is indeed noteworthy: especially when measured along-side such persons as Edward R. Murrow, Reinhold Niebuhr, Carl Sandburg, Helen Keller, Dean Acheson, and 23 others among them John L. Lewis and Dr. Paul others, among them, John L. Lewis and Dr. Paul Dudley White.

INDIAN NO LOAF; HIM WANT WURK. SAVE WAMPUM

SAVE WAMPUM Frank Morgan, writing in THE WALL STREET JOURNAL, tells how Yankee industrialists have struck it rich by leasing land and buildings from the Laguna Indians on the reservations of New Mexico and Arizons (many of whom we saw on a trip through the area). These Indians have al-most stopped migrating to big cities since the influx of new industries to their hop-lands. They

ALTAR CALL

BY EMORY G. DAVIS, D.D. (For Nearo Press International)

"WE DON'T YET HAVE THE ANSWERS"

That is the admission of Dr. H. Conrad Hover. associate executive secretary of the National Council of churches' division of home missions, as he confronts such current urban problems and as he confronts such current urban problems and revolutions which have occurred in the Negro ghetto communities of Harlem, Bedford-Stuyve-sant in Brooklyn and upstate Rothester. N. Y. Dr. Hoyer further explains, "The church has learned to accept the city and the many complexities of the 'urban context'. Now, in many different ways, we are trying to learn to understand the city."

we are trying to learn to understand the city." These two comments reveal a "blind spot" in efforts of the white church leadership and the "big" Negro church leadership to either under-stand or communicate with the thousands of Ne-groes who now form the major population in the inner city of our large urban centers. Too many civic and religious leaders, both white and Negro, ignore the existence of literally hundreds of "store front" churches of various denominations where thousands of Negroes meet each Sunday for "service."

for "service." There are hundreds of "store front" churches in Northern cities whose pastors neither belong to or attend Council of Church meetings. Most of them are quite autonomus with little or no affili-ation with ecumenical, denominational or civic groups. The pastor generally has another job or feels intellectually limited and woud feel out of place around the more highly trained church leaders. The congregations of these ministers. thus are never really involved in the dialogs de-signed by church leaders ("the high and mighty") to serve the real needs of ghettoined Negroes and equip them to steel themselves against such un-toward onalaughts that trigger rioting.

The whites have field the urban center displaced, disheartened and browbeaten i of the South have filled the inner city va that are left. The city fathers, the big pastors, the highly-structured religious o ters. The ten Negroes really do NOT know what to do with this revo-

Attempts are being made by religious leaders in a few cities to give "horizontal" leadership—the kind that cuts across faith and denomination. Training centers are set up on inter-denomina-tional, inter-faith bases, some underwritten with substantial financial grants, and their function is too new to know just what the results will be. This approach, despite the fact that it only in-volves the major churches is better that the "vertical" approach, where each denomination or faith tries to do its own bit and increase its own membership. Here again, the "store front" thou-sands are left out of the program.

Another possibility occurs. There is an ALTAR where the "big" city church pastor and people can "kneel", yield themselves, and go forth in His Name-THE ALTAR OF INVOLVMENT.

His Name-THE ALTAR OF INVOLVMENT. What is it like? Why shouldn't the big church pastor establish friendship with 2 or 3 "store front" pastors, and in God's name not on the bas-is of altruistic condescension, sharing with them the ides and work of the Councils and Federa-tions, taking them along to important meetings where decisions are made and ideas exchanged? Why shouldn't big church clubs and auxiliaries plan joint activities - missionary, youth, prayer bands - with their "store front" church neigh-bors? And, a gain, NO condescending attitudes. Until the "big" Negro church that remains in the large Negro ghetto and the "store front" churches in the ghetto get together in concerns and interests, the complexities that contribute to racial explosiveness will never be solved. Until the white church leadership establishes some kind of realistic identity with the most ob-obscure "store front" there is little they will ever discover that they can do to allay the fury of this unstoppable Negro revolution.

At the ALTAR OF INVOLVMENT, there is "neither bond nor free, black nor white, cathe-dral nor store front"-just God's children.

THE NEGRO PRESS believes that Americo on best land the world ar ay from recial and national antagonisms when it accords to every than regardless of race, onlor or creat, his human and legal rights.
