

CP&L Institutes Envelopes Billing

Carolina Power & Light Company customers in the two Carolinas will note a new look in their October electric bills.

For the first time in 15 years, CP&L's electric bills are being mailed in envelopes rather than as open postcards.

R. B. Carpenter, treasurer of the utility, explained that the change was made in preparation for electronic computer billing, which virtually dictates the use of envelopes.

"Bills can be computed electronically more accurately, more economically and more efficiently," Mr. Carpenter commented. "Noting that since the company switched from envelopes to postcards in 1949, the postage rate has risen from one cent to four cents, he added."

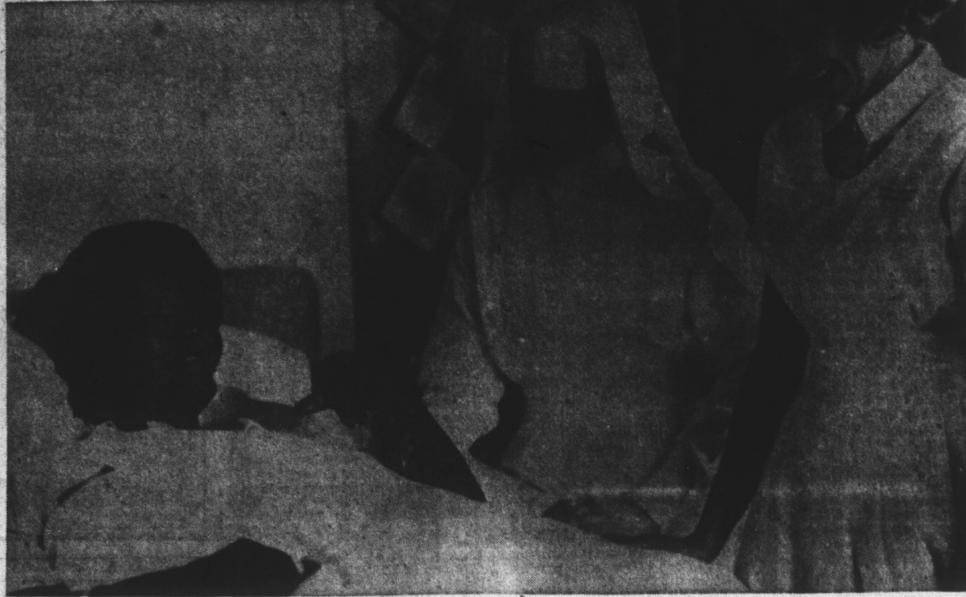

ed matter other than the monthly bills," Carpenter said. "We look forward to sending the customer company news which he might not otherwise get and of discussing company practices and policy in which he may have an interest."

Carpenter pointed out that, under the company's "cycle billing," some customers would not get their bills in the envelopes until late October or even early November but that thereafter their electric bills would continue to be enclosed in envelopes.

OPINIONATED AMERICANS
The subjects on which people have the strongest opinions, according to a massive survey by the American Association of Advertising Agencies quoted in the Catholic Digest, are in this order: religion, 59 per cent; bringing up children, 4 per cent; family life, 38 per cent; education, 33 per cent.

RADICALISM is often just an empty stomach shouting for a place at the food trough.

"WORLD'S GREATEST GOSPEL SINGER" RECOVERS — Miss Mahalia Jackson, world-renowned gospel singer, is recovering now in Little Company of Mary Hospital, Chicago, from a heart ailment brought on by exhaustion. At her bedside last week were: Sister Mary Clare, floor supervisor of the hospital; and Miss Joan Surowiec, student nurse, of the hospital's School of Nursing. (UPI PHOTO).

4 Choirs Open ABC's October "Negro College Choir" Series

NEW YORK — The choir of four member colleges of the United Negro College Fund will present a program of choral music by Bach, Beethoven, and Brahms. These three immortal German composers are often grouped together as the "Three Bs."

Sharing the spotlight in ABC's initial October program are Paine College in Augusta, Ga.; Morehouse College in Atlanta, Ga.; Knoxville College in Knoxville, Tenn.; and Fisk University in Nashville, Tenn. The broadcast originated in New York City, October 4th, and will be repeated by affiliated ABC stations in all sections of the country at various hours that day or later in the week. Please check local newspaper listings for air time.

Three other UNCF choir programs will be heard during October. The choir of Xavier University in New Orleans, La., will be featured on the broadcast the week of October 11th. Gordon O. Brown is the choir director. Under the baton of Lucy M. Newby, the choir of Barber-Scotia College, in Concord, North Carolina, will be heard the week of October 18th. Rounding out the October series, the choir of St. Paul's College in Lawrenceville, Va., will be heard the week of October 25th. The St. Paul's College Choir is directed by Dr. Larry Palmer.

Fayetteville Boasts 1,147 '64 Enrollees

FAYETTEVILLE — There are 1,147 students registered at Fayetteville State College for the fall semester of the 1964-65 school year. This is a 6 percent increase over last year's enrollment, Registrar Lenna M. Means said.

With 760 women and 387 men registered, there is one man now for every two women on the FSC campus.

Districted by classes 978 freshmen, 195 sophomores, 173 juniors, 158 seniors, 8 special, 39 secretarial science, and 2 vocational students have entered Fayetteville State for the first term.

The students come from 15 states, including Alabama, Connecticut, District of Columbia, Florida, and Georgia.

Also Illinois, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia.

A total of 101 students are from outside North Carolina with 1,136 state students registered.

Slightly over 63 percent, 770 students, live in the college dormitories and 227 students reside off-campus.

A little more than 39 percent, 457 students, have enrolled at FSC for the first time. Of this number, two are white students.

In order of preference, the new students list elementary education, business education, health and physical education, sociology, secretarial science, history, English, mathematics, and biology as major study fields.

Registrar Means stated there is a steady climb in the number of students preparing as secondary-school teachers.

Insurance And Bonds

INSURANCE. We write Fire, Automobile, Wind-storm and Home Burglary, Theft, Collision and Liability.

BONDS: Fidelity and Surety. Do you need a bond to qualify as Administrator, Executor or Trustee of an Estate, or Guardian of a Minor.

What's new! Fusarium Blight is a new and destructive disease of turf grasses in the Northeast. Dr. H. B. Couch, plant pathologist at Penn State University, identified this previously unknown disease.

Under favorable conditions the disease spreads very rapidly, killing entire stands of grass within one week. In severe cases rotting of roots, crowns, stolons and rhizomes may occur. Bentgrass appears to be the susceptible followed by bluegrass and creeping red fescue.

Dr. J. G. Woodruff of the Georgia Experiment Station reports that pecans store best when well filled and put into storage within a month after harvest. Shelling reduces the expected storage life of the nuts by about one-half; also, any breaks in the kernel hasten the likelihood of decay and off-flavors.

The lower the temperature, even below freezing, the longer the nuts will keep. Frozen nuts are very brittle and should be allowed to thaw slowly for several hours to prevent excessive breaking.

Dr. Woodruff also gives some pointers on the storage of chestnuts. In the shell they can be kept at a relative humidity of 65-70 per cent. In a higher humidity the nuts may become moldy and at a lower humidity they may become hard and dry. Shelled nuts which are dry, roasted or boiled will keep for a year when frozen at 0 degree F. or below. Dry roasting best preserves the flavor. Phosphorus has increased flower-

bud formation in rhododendron according to studies conducted by A. M. Myhre and W. P. Mortensen of the West Washington (State) Experiment Station. The test included the first four years of growth starting with rooted cuttings.

In soils considered to have an average amount of available phosphorus, the addition of more phosphorus gave an increase in flower-bud set.

Using a series of six treatments, the application of 400 pounds of P205 per acre produced a greater number of flower buds. Results were better when the phosphorus was incorporated in the soil prior to planting the cuttings.

Miss Pruitt Heads Frosh Committee

GREENSBORO — Miss Willa Pruitt, of Camden, N. J., has been elected chairman of the steering committee of the freshman class at Bennett College.

Co-chairman of the group which represent the class for the remainder of the semester is Miss Johnnie Montgomery, of Greensboro.

Others elected to the committee are: Misses Hedy Hunt, secretary, of Henderson; Myrtle Capehart, assistant secretary, of Raleigh; Ann Stanback, treasurer, of Greensboro and Gwendolyn Morse, student-at-large, of Ninety Six, S. C.

Michalson Stresses Service Above Self In Bennett Talk

GREENSBORO — The fact that societies are renewed by people who care about something, who put service above self, was stressed by Dr. Gordon E. Michalson, of Jacksonville, Ill., during the annual Annie Merner Pfeiffer commemorative service at Bennett College Sunday.

Dr. Michalson is president of MacMurray College which also received gifts from Mrs. Pfeiffer and her husband and he re-emphasized the tribute to Mrs. Pfeiffer which was read by Mrs. Zack Browning, '64 of Greensboro, representing the graduates.

"One needs a great reason for serving than the pain of others," he declared. "He needs something of a sense of gratitude. Rings and jewels are only apologies for gifts; the real gifts are of yourself."

Recalling Mrs. Pfeiffer as a person who gave of herself as well as her substance and found joy in doing so, Dr. Michalson referred to the Biblical passage concerning how one must lose his life in order to save it, adding that "there is nothing so discouraging in life, than to do one's duty for duty's sake, alone."

KENNEDY FOUNDATION. Since 1964, the Joseph P. Kennedy, Jr. Foundation has spent \$2.5 million on problems of mental retardation. Until last year, it was spending more money in this field than the U. S. government, the Catholic Digest says.
